

NATIONS WILL BE NOTIFIED THAT INTERFERENCE IN MEXICO WILL BE REGARDED AS UNFRIENDLY TO U. S.

United States Government Preparing Proclamation To Nations Of World

WILL DEFINE POLICY

Note Will Also Serve As An Explicit Definition of the U. S. Toward Mexican Authorities

RELEASED AFTER ELECTION

WASHINGTON, Oct. 24.—The United States government is preparing to notify the nations of the world generally that any interference in Mexican affairs will be regarded as unfriendly to this government.

President Wilson, Secretary Bryan and Counselor John Bassett Moore, of the state department, have exchanged ideas on what the proclamation to the world should express. It will be communicated to foreign governments everywhere in line with the policy established earlier of keeping other nations informed of every step taken in its handling of the Mexican problem.

The proclamation or note also will serve, it is understood, as an explicit definition of the policy of the United States toward the defacto authorities in Mexico, reiterating the principle that recognition can only be given to governments on this hemisphere, founded on law and order.

Released After Sunday.

Earlier today it was expected that it would only be a matter of a few hours when the proclamation will be made public but tonight it was practically decided to hold the matter in abeyance for several days at least until after the elections in Mexico next Sunday. Two things, it is known, have contributed to the delay of the government to define its policy—the presentation by Sir Lionel Carden, the British minister to Mexico, of his credentials immediately after Huerta had proclaimed himself dictator, and the dispatch of several war vessels to Mexican waters.

The British embassy here today at the direction of the foreign office officially advised Secretary Bryan that the British government pronounced as unauthentic the now famous interview credited to Sir Lionel Carden expressing the view that the United States did not understand conditions in Mexico.

Another incident tonight that was regarded with significance was the assurance that came from Ambassador Jusserand to the state department that the French government, in sending a warship to Mexican waters, did not intend in any way to embarrass the United States. Officials indicated satisfaction over the appropriate trend of the French government's attitude.

There is a possibility that if the powers indicate further unwillingness to embarrass the United States that this government may withhold its pronouncement, but some officials were of the opinion that sooner or later such a declaration, which they regarded as tantamount to reaffirmation of the principles of the Monroe doctrine would be required.

Monro Castle Released.
Administration officials generally maintained a severe reticence in connection with Mexican affairs. They admitted that an acute and delicate situation existed early in the day when word was received that the American vessel, the Monro Castle, had been detained. It was not revealed what orders were in preparation but there was a noticeable relief in official circles when cablegrams announcing the release of the ship.

Tonight the disposition of the high officials of the government was to await the developments of the next 48 hours before making any move. President Wilson had some doubt about going to Mobile, Alabama to make an address on Monday before the Southern Commercial congress but he told friends tonight that he probably would go. He leaves early tomorrow for Philadelphia to make an address at the Congress Hall celebration but should there be extraordinary developments he may not make the southern trip.

Held Frequent Conferences.

Secretary Bryan was in frequent conference with the president during the day. Mr. Bryan called attention to General Huerta's promise to the diplomatic corps that even if his friends voted for him next Sunday he would not accept the presidency on the ground that it would be unconstitutional for him to succeed himself. Inasmuch as President Wilson in a note recently announced that the United States regarded the assumption of dictatorship by Huerta as a violation of the promises for a constitutional election, the result of this election is not calculated to have any considerable effect on the American policy.

The predicament of General Felix Diaz, one of the candidates for the presidency who remains isolated at Vera Cruz apprehensive of danger if he tries to make a political campaign excited the attention of officials here who are determined to give him asylum if necessary. The position of the administration with respect to all candidates is that they should not be molested in any way.

FREEPORT PHYSICIAN IS EXONERATED BY CONFESSION

Nurse Admits Writing the Letters to Miss Alta Rosenstiel Which Caused Dr. Arnold's Arrest.

Freeport, Ill., Oct. 24.—Mrs. Lena Enseler, a witness for Benjamin A. Arnold, a physician on trial charged with having mailed improper letters to Alta Rosenstiel, tonight exonerated Dr. Arnold and confessed that she had written the letters which caused his arrest. It is expected the charges against Dr. Arnold will be dismissed by Judge Landis tomorrow morning.

Mrs. Enseler's confession was made before the attorneys in the judge's chambers, after she had become too hysterical to testify at the night session of the trial. She was weeping when brought to the witness stand and finally attempted to rush from the court room, bailiffs in pursuit.

Mrs. Enseler, who is 25 years old, formerly was a nurse. She was a witness for Arnold when he was tried in a state court on charges of attacking the Rosenstiel girl and acquitted.

Her reason for writing the letters, she said, was that she had disliked the girl for prosecuting Arnold.

TIME IS EXTENDED.
New York, Oct. 24.—The time for the handing down of the arbitration board's award in the wage dispute between the eastern railroads and their trainmen and conductors, was extended today to November 10. It was to have been announced tomorrow.

RACE DRIVER IS KILLED.
Douglas, Ariz., Oct. 24.—Jack Forrest of El Paso, Tex., a well known automobile racing driver, and his mechanic, were killed tonight when their car turned turtle.

FRIDAY IN CONGRESS

Senate.
Not in session.
Meets Monday.
Banking committee continued hearings.
House.
Met at noon.
Transacted no business and adjourned at 12:37 p. m. until noon Monday.

MOB OF STRIKERS ATTACK MINE GUARDS

STRIKERS WOULD PREVENT DEFLECTION FROM THEIR RANKS

Two Wagon Loads of Former Strikers Who Had Decided to Return to the Mines Near Walsenberg Are Guarded by Mine Guards When Strikers Make Attack.

TRINIDAD, Colo., Oct. 24.—One striker killed, two strikers reported wounded, one seriously injured, and a mine guard slightly wounded are the net results of an attempt by strikers, it is said, to prevent defection in their ranks this afternoon at Walsenberg. Shortly after 4 o'clock two wagon loads of former strikers with their wives and their household goods who had decided to return to work at the Walsenberg mine, were proceeding through Walsenberg bound for the mine on the outskirts of the town under armed escort of mine guards. News of the defection brought a mob of strikers about the vehicle. Stones were thrown and a shot fired, it is reported, by a striker in the mob, and guards replied.

Strikers Held For Trial.
Calumet, Mich., Oct. 24.—Two hundred and five copper strikers arrested at the Mohawk mine by deputies and troops for alleged violation of the injunction prohibiting interference with workmen, were arraigned this afternoon before Circuit Judge O'Brien at Houghton. All were held for trial.

The Duluth, South Shore & Atlantic evening passenger train carrying "strike breakers" for the Calumet and Hecla Mining company was fired on tonight supposedly by copper strikers, about a mile from Hancock. Soldiers and deputies on the train returned the fire. No one on the train was hurt but the bullets shattered windows in the coaches. It is not known whether any of the men who fired at the train were hit, soldiers reported on their arrival at Calumet that they saw men dropping when they fired but were not certain whether they hit them.

Capture Machine Gun.
Advice to the sheriff's office tonight stated that strikers had stopped a train near Walsenberg and taken a machine gun being sent to the Walsenberg mine by the operators. Later it is said the machine gun was turned on the carlight that has been used nightly.

According to reports here a man had several fingers shot off.

BANK OF PALMYRA BECOMES A VOLUNTARY BANKRUPT

Institution With Capital of \$10,000 Has Liabilities Approximating \$180,000.

Springfield, Ill., Oct. 24.—The Bank of Palmyra, a private institution with a capital of \$10,000, today became a voluntary bankrupt, with liabilities which are stated to approximate \$180,000. Henry Hamilton, president of the State Bank of Girard, has been named receiver.

The failure is attributed by President L. P. Smith, to the inability to collect on mortgages, notes and accounts and because of the failure of crops this season. The institution was owned by L. P. Smith, C. F. Mahan, cash; John W. Duncan, and Henry Horton, who with the others is acted as board of directors. It is stated the institution will be able to pay dollar for dollar when the securities are adjusted.

OVERSEER ACQUITTED.

Rockford, Ill., Oct. 24.—Wilbur Glenn Voliva, overseer of Zion City, was tonight acquitted of perjury by a jury in the circuit court here. The indictment was returned in LaSalle county following an investigation by the grand jury of alleged fraudulent voting in connection with the Zion election of 1910. The case came to Winnebago county on change of venue and when tried at the April term a disagreement resulted, the jury standing 11 to 1 for conviction.

DENVER MEETS SOUTH DAKOTA.

Denver, Colo., Oct. 24.—With several crippled players the University of Denver football squad left last night for Sioux Falls, S. D., where they meet the University of South Dakota tomorrow. The best that is hoped for by Coach Wingenroth is that the South Dakota team will be held to a low score.

LUNCH ON MOUNTAIN PEAK.

Rio Janeiro, Oct. 24.—Colonel Roosevelt, Mrs. Roosevelt and Miss Margaret Roosevelt spent this morning on an excursion to Tijuca mountain, a peak 3,400 feet high and had luncheon there. In the afternoon they attended a garden party in the botanical gardens here.

WILL MEET IN LOS ANGELES.

Chicago, Oct. 24.—The national convention of Universalists here today chose Los Angeles as the place of the 1915 convention.

FIFTY FOUR BODIES ARE RECOVERED

Experts Concede That 209 Bodies Are Still Within Gas Filled Chambers of Stag Mine

TWO DEATHS ADDED TO TOTAL

Two Rescue Men Succumb to Gases and Other Men Who Had Been Doing Rescue Work Refuse to Go Back Into the Mine

KANSAS MEN TAKE THEIR PLACES

DAWSON, N. M., Oct. 24.—Fifty-four bodies had been removed tonight from Stag Canon Mine No. 2, two deaths had been added to the mine total and government experts, now in charge of the work of rescue, conceded that 209 bodies are still within the gas filled chambers. Thirty-six bodies have already been buried, a union service for all taking place today. The work of searching for bodies still is going on. Hope that additions to the twenty-three rescued alive will be made has been abandoned.

The two deaths added to the list today were those of rescue men, James Lurdi and William Poiel. The men were members of a rescue squad which entered the mine in the early morning. They did not return and it was only after the experts of the United States rescue corps had searched six hours that the bodies were found. At the news of the added deaths the men who had been doing the rescue work refused to go back into the mine. Their places were taken by men from the rescue car which had been rushed from the Kansas coal fields.

The work of rescue is going forward slowly. Conditions within the mine are such that the emergency hospital is a rescue station for men who have been overcome by the work of rescue or the fumes of the mine.

The funeral service over the bodies was simple. Father A. C. Collier, of St. Joseph's Catholic Parish, Springfield, N. M., read the service over the remains of one of that faith while for the others Rev. M. M. Shields, Camp Chaplain, read the Episcopal burial service.

Six bodies remain in the morgue tonight. These will be buried tomorrow.

All Hope Is Abandoned.

All indications tonight pointed to the certainty that 23 will remain the total number of survivors from the 284 miners who were working in the mine at the time of the explosion. Car No. 4, of the United States rescue service arrived here about midnight tonight.

The rescue crews hastened to the Stag Canon mine. The Red Cross at Trinidad tonight telegraphed: "If in planning for future of families of our experiences at Cherry, Ill., can help the company, feel very free to command us for conference or shaping of plans our services are freely at your disposal."

General Manager O'Brien replied that as soon as the mine has been cleared the owners will be glad to avail themselves of the services offered.

At 10:30 o'clock tonight 61 bodies had been recovered and taken to the morgue. Of this number six are unidentified and identification now seems most remote. George Williams was the only American miner identified tonight.

PEORIA WOMAN ELECTED.

Quincy, Ill., Oct. 24.—Mrs. George Page of Peoria was unanimously elected state regent of the Illinois Daughters of the American Revolution at their state convention this afternoon.

JOHNSON GETS LOVING CUP.

Humboldt, Kans., Oct. 24.—Walter Johnson, the Washington American's star pitcher in the box for the Humboldt team here today was opposed by Al Brennan of the Philadelphia Nationals, pitching for Iowa. The game was a ten inning no-run affair in which each pitcher allowed two hits. Johnson, who lives at Coffeyville, Kans., was presented with a loving cup by his admirers in his home state.

SPEAKS FOR BLAIR LEE.

Baltimore, Md., Oct. 24.—Secretary of State William Jennings Bryan made two speeches here tonight in the interest of the candidacy of Blair Lee for the United States senate.

WEATHER INDICATIONS AND TEMPERATURES.

Washington, Oct. 24.—For Illinois: Fair Saturday; Sunday increasing cloudiness, light variable winds.

Temperatures.

Chicago, Oct. 24.—Current, maximum and minimum temperatures today were:

	Current	High	Low
Boston	62	62	50
Buffalo	54	56	50
New Orleans	50	66	46
Chicago	56	60	46
Detroit	52	54	42
Omaha	64	70	40
St. Paul	50	52	48
Helena	40	56	48
San Francisco	50	56	48
Winnipeg	46	54	32

STANDARD OIL VICTIM OF AN ALLEGED TRUST

RETAIL LUMBER DEALERS IN EAST SEEK TO SET ASIDE INJUNCTION

Injunction Prevents Lumber Dealers From Circulating Among Them a List of Wholesalers Who Sell Direct to Consumers—Standard Oil Company Buys Direct From Wholesalers.

WASHINGTON, Oct. 24.—The name of the Standard Oil company as a victim of an alleged trust figured today in the "lumber dealers' case" before the supreme court. Retail lumber dealers in the east are seeking to have the court set aside an injunction issued against them by the New York federal court to prevent them from circulating among themselves a list of wholesalers who sell direct to consumers.

The government contends that the circulation of these lists restrains competition, as wholesalers are loath to incur the wrath of retailers by selling to consumers. The name of the Standard Oil company, the first of the big concerns to be dissolved by the supreme court, heads the list furnished the court of consumers who have been buying direct from wholesalers.

Alfred B. Cruikshank of New York declared that the Sherman anti-trust law did not require a retailer to deal with a man who was his competitor. He asserted that there was no agreement among the retailers not to deal with "scalper" wholesalers, but each retailer was left to follow his own judgment. Argument of the case will be concluded Monday.

MOTHER AND TWO CHILDREN ARE FATALLY BURNED

Father and Four Firemen Are Badly Injured in Hammond Fire.

Hammond, Ind., Oct. 24.—Mrs. Joseph Schezda, her 6-year-old son and 4-year-old daughter were fatally burned today in a fire which started from blazing linseed oil which fell from the stove. The blaze set fire to the children's clothing and the mother was burned trying to extinguish the flames.

Four firemen were slightly injured. The house was destroyed.

BROOKLYN SCHOOL TEACHER'S AFFECTIONS VALUED AT \$35,000

Awarded Verdict in Suit Against Manufacturer For Alleged Breach of Promise to Marry.

New York, Oct. 24.—A jury in the supreme court this afternoon placed a value of \$35,000 upon the affections of Miss Mary McIntyre, a Brooklyn school teacher. A verdict awarding her this sum was returned in her \$150,000 suit against William Hughes, a manufacturer of paper boxes for alleged breach of promise to marry. Miss McIntyre is about 40 years old; Hughes is 63.

W. R. C. PLAN DISTRICT CONVENTION

Delegates From Eight Cities Will Hold Sessions at Christian Church Nov. 4.

The Woman's Relief Corps, District No. 29 will meet in annual convention, Tuesday Nov. 4, at the Central Christian church, according to plans announced yesterday afternoon at the regular meeting of Corps No. 199 at their hall on West Morgan street. Delegates will be in attendance from Barry, Pittsfield, Havana, Beardstown, Virginia, Jerseyville and Quincy, which with Jacksonville will make up the 29th district of the Department of Illinois. The executive committee, appointed to take charge of the convention preparations, are: Mesdames Sophia Benson, John Vieira, C. Riggs Taylor and C. L. Hayden.

After scripture reading and prayer by the chaplain, Mrs. J. W. Waller, the convention will participate in the opening ode and the flag salute, after which the address of welcome will be given by one of the visiting delegates. The sessions will occupy both morning and afternoon. Dinner will be served by the ladies of the local corps at noon in the church parlors.

WILL MARRY IN ST. LOUIS

Mr. and Mrs. Moses Topping, Sr., of South Fayette street will leave this morning for St. Louis to attend the wedding today of their son, Arthur P. Topping of this city, and Miss Jennie M. Thompson of 5345 Theodosia avenue.

SPECIAL FOR TODAY

GOOSEBERRY PIE.
IDEAL BAKERY E. STATE ST.

FIRST IMPORTATION OF MEATS FROM CANADA REACHES CHICAGO

CHICAGO, Oct. 24.—More than a million pounds of fresh dressed meats arrived here today from Canada, the first importation under the new tariff which admits dressed meat free. The prices ranged from 6-3-4 to 8 cents a pound which is lower than Chicago packers usually pay for beef on the hoof.

Football Bradley vs. Illinois today, 3 p. m., Illinois field.

CRAIG GIVEN OATH AND BEGINS DUTIES

COMPLETE RETURNS FROM DISTRICT GIVE DEMOCRAT 4,451 PLURALITY

Hon. Charles C. Craig Takes Place Made Vacant by Resignation of Justice Hand—New Justice Finds Himself in Midst of Great Deal of Work on First Day of His Term of Office.

SPRINGFIELD, Ill., Oct. 24.—Hon. Charles C. Craig of Galesburg, elected last Monday to the vacancy on the supreme bench from the fifth district, to take the place made vacant by the resignation of Justice John P. Hand of Cambridge, was today given the oath of office and entered upon his duties. The court is now in session and adjournment for the term is expected in a few days.

Consequently the new justice found himself in the midst of a great deal of work on the first day of his term of office.

The returns from Peoria county were the last to come in and when they arrived early in the afternoon, after Secretary of State Woods had urged the Peoria officials to hurry them along, the state canvassing board met and canvassed the vote. The oath of office was administered to the new member of the court by Justice George A. Cook, of Alton.

The complete returns from the district are:
Charles C. Craig, Dem.—17,721.
Leslie Puterbaugh, Rep.—14,270.
Albert Shay, Prog.—9,088.
Craig's plurality, 3,451.

CAUTION BY CLERK IN DEAD LETTER OFFICE SAVES HIS LIFE

Package Mailed at Cincinnati For New Zealand Loaded With Nitroglycerin.

Washington, Oct. 24.—Suspicious of a queer looking piece of copper wire, a clerk in the dead letter office saved his life today by sending for the police when he took the pasteboard cover off a little wooden box that had been turned over to him for inspection. Army officers at Washington barracks sent a charge of electricity into the box and it exploded with a great roar.

The package, addressed to Frank Goldberg, Wellington, New Zealand was mailed at Cincinnati with insufficient postage. Unable to locate the sender, the Cincinnati postmaster forwarded it to the dead letter office. It contained enough nitroglycerin to have blown to pieces anybody who opened it.

LOCAL OPTION FORCES PLAN BIG MEETINGS FOR SUNDAY

Mayor Bennett of Rockford Will Speak at State Street Church in the Afternoon—Platform Meeting Announced for Central Park—Women To Gather at Centenary—Night Services in Central Christian.

Sunday will be an important day in the local option campaign as their will be several meetings in the afternoon and another at night. At State Street church at 2:30 o'clock Mayor Bennett of Rockford will make the address and will tell about condition of Rockford and how the closing of saloons has affected the city from moral and business standpoints. Mayor Bennett has expressed the particular wish to have in his audience men who have honest doubts as to local option, being the best method to handle the saloon question.

While this meeting is in progress another one exclusively for women will be held in Centenary church where able speakers will be heard. Promptly at four o'clock another meeting will be held in Central park when it is planned to have several music. The meeting at State Street and Centenary churches will be adjourned in time for 4 o'clock meeting so that there will be no conflict of interest.

At night in Central Christian church there will be still another mass meeting when Mayor Bennett will make another address and possibly others will be heard.

CENTRAL CHRISTIAN CHURCH BIBLE SCHOOL.

All members of the church are urgently requested and all friends cordially invited to attend the Bible school Sunday morning. In the Illinois Star Bible school contest Paris leads with 4,147 points; Jacksonville second, 3,760; Champaign, 2,690; Litchfield, 2,996. Show your loyalty. Visit any department of the school. All officers and teachers will please be "ON TIME." All others please be sure to be present by 9:55 o'clock.

C. L. Mathis, Supt.

BATTLE CREEK, Mich., Oct. 24.

Samuel Eberley Gross of Chicago, a wealthy real estate operator and author, who sued Edmund Rostrad, the French dramatist for plagiarism, died here today.

NEW YORK, Oct. 24.—A gas oven in which metal was being enameled on the top floor of a six story factory building in Canal street, exploded today killing four persons. More than a score of others were injured and burned in the fire that followed the explosion.

WASHINGTON, Oct. 24.—Assistant Secretary Roosevelt of the navy department with a party of government officials left here today aboard the dispatch boat Dolphin for Hampton Roads to witness the departure of nine Atlantic fleet battleships for their Mediterranean cruise tomorrow.

CHIEF ISSUE OF CURRENCY FIGHT

Senate Committee Will Debate One Federal Reserve Bank Plan and Administration Bill Plan

OPPOSED TO VANDERLIP PLAN

President Wilson Expresses Himself as Opposed to Vanderlip Scheme of Currency Control—Endorses Administration Bill

THINKS IT SUITS COUNTRY'S NEED

WASHINGTON, Oct. 24.—Whether there shall be one federal reserve bank with branches throughout the United States or several banks as provided for in the administration bill, promises to be the chief issue of the final currency reform fight in the senate committee that is to open up Monday. The hearings of the committee will conclude tomorrow night and the committee members will begin Monday the arduous task of attempting to agree upon a revision of the Glass bill that will prove acceptable to President Wilson and the house. The president made it known in emphatic terms today that he was opposed to the central bank plan suggested yesterday by Frank A. Vanderlip of the National City Bank of New York, and endorsed informally by many members of senate committee. He reiterated through Secretary Tumulty that the Glass-Owen bill with its system of twelve regional reserve banks related only through the functions of one federal reserve bank sitting at Washington was admirably suited to the needs of the country.

While members of the committee, including several Democrats, were drawing out witnesses in further support of the single bank idea, President Wilson talked at length with other senators outlining his desire that the Glass bill be left unchanged in this particular. It was apparent tonight that the course of several members of the committee probably will be determined finally by the attitude taken by President Wilson and other party leaders as to the expediency of the single bank plan. Senators O'Gorman, Hitchcock and Reed, Democrats, all favor the idea of a single federal reserve bank, as opposed to many separate ones, but it is believed that their advocacy of the plan may be abandoned in committee if the Democratic leaders insist that such a measure could not be passed through the house.

WELL KNOWN BEARDEXTOWN FARMER DISAPPEARS.

Charles Webber, Unheard of Since Thursday Night, Gives Family Great Concern.

Charles Webber, a well known farmer residing just east of Beardstown, has mysteriously disappeared, according to a special message received from Beardstown Friday night at 11 o'clock. He took leave of his family Thursday evening after supper and drove to town with Oliver Miller, a neighbor, got out of the buggy at the Burlington depot and started toward the drug store of Davis Bros., less than a block away, to make a purchase. When he did not return Mr. Miller made inquiries at the store, but was informed that he had not been there. He inquired further, but could find no trace of the man. On his continued absence Friday Mr. Webber's family notified the police of Beardstown, but the search thus far has been fruitless. As he had on his person less than two dollars in change little fear was felt that he had been the victim of robbers.

MORE THAN 5000 REGISTER.

North Platte, Neb., Oct. 24.—More than 5,000 persons were in line at registration points today to register for the government lands in the North Platte forest reserve and the Nebraska Military Reservation. Registrations now are that the total registration will exceed 80,000. Registration closes at midnight Saturday and the drawing will begin next Tuesday.

SPARKS FROM THE WIRES

BATTLE CREEK, Mich., Oct. 24.—Samuel Eberley Gross of Chicago, a wealthy real estate operator and author, who sued Edmund Rostrad, the French dramatist for plagiarism, died here today.

NEW YORK, Oct. 24.—A gas oven in which metal was being enameled on the top floor of a six story factory building in Canal street, exploded today killing four persons. More than a score of others were injured and burned in the fire that followed the explosion.

WASHINGTON, Oct. 24.—Assistant Secretary Roosevelt of the navy department with a party of government officials left here today aboard the dispatch boat Dolphin for Hampton Roads to witness the departure of nine Atlantic fleet battleships for their Mediterranean cruise tomorrow.

The Chesterfield Watch
Slips Into Your Pocket
with the Ease of a Silver
Dollar.

THIS WATCH
the thinnest in class
made gentleman's watch

But that isn't why we urged you to select it in preference to all others—there are many extremely thin model watches both foreign and American made today.

In fact any watch factory can build a thin model watch but its another matter to make it keep time.

And that is where the Chesterfield excels. It is unquestionably the most accurate thin timepiece made today.

Come in and let us show you what an elegant and stylish appearing watch it really is.

You will find one at a price to suit.

Schram
JEWELERS

THREE ILLINOIS VETERANS WHO WILL PLAY AGAINST BRADLEY TODAY

FRED STEWART
QuarterbackCAPTAIN ALFORD
Left HalfbackROBBINS RUSSEL
Left Tackle

The above men are three players who will be in the thick of the gridiron battle this afternoon when Illinois meets Bradley Institute of Peoria on Illinois field at 3 o'clock. Captain Alford at halfback, Stewart at quarterback and Russel at left tackle are three of last year's veterans who are expected to lead the way to victory this afternoon. Alford with his terrific plunging, Stewart with his generalship and trusty toe which sends the long twisting spirals down the field, and Russel with his aggressive defensive work should prove difficult propositions

for Bradley. These three men, however, are not expected to bear the brunt of the work. The whole team is in good condition and judging by the way the men romped through their practice last evening they are ready to play a hard game, which is the kind of game they expect and are prepared to play.

The field has dried out fast during the last two days and by this afternoon it should be in condition for fast play. This is what the Illinois men have been hoping for, because they feel that they can do themselves justice on a dry field.

A week ago Illinois defeated Normal at Normal by a score of 22 to 7. Two weeks ago Bradley won from Normal on Bradley field by 19 to 7. On a basis of comparative scores Illinois seems to have a slight advantage in today's game. Judged from any angle of the contest gives promise of being a hard fought battle for supremacy. The probable Illinois line-up is: L. e. McLaughlin; L. T. R. Russel; I. G. C. Lukeman; C. Maxey; R. G. Darragh; R. L. Frisbie; R. e. Pierce; Karch; G. b. Stewart; R. b. Capt. Alford; I. h. Wilson; F. b. Mitchell.

MEETS DEATH IN
ILLINOIS RIVER

PROMINENT BEARDSTOWN RESIDENT FINDS WATER GRAVE.

William G. Mohlmann, Who Left City Evening Before in His Gasoline Launch, Found Dead in Eighteen Inches of Water—Was Well Known Furniture Dealer and Embalmer—Coroner's Inquest Today.

William G. Mohlmann, a leading furniture dealer and undertaker of Beardstown, was found dead Friday morning in the Illinois river. He left the city the evening before at 5:10 o'clock in his gasoline launch for drowning, ill, where he expected to hunt for a few days. His body was found the following morning at 8:20 o'clock by Messrs. Carner and Scherer, at the foot of Beard street, in about twenty inches of water. The body was in a crouched position, with the head just emerging from the top of the water and it is supposed that he had been dead for some time.

It is believed that Mr. Mohlmann abandoned his trip to Bowling on account of the foggy weather, his engine not working properly, and that he was returning home when the drowning took place. Friends believe he thought he had reached his usual landing place and in some unknown way emerged from the boat and fell. The only mysterious part of the accident was that he met death in some eighteen or twenty inches of water. It is probable that he hit his head against the boat, rendering him unconscious, although no marks could be found on the body. The empty launch was found about two blocks below where the drowning took place. It had washed ashore. A jury was empaneled yesterday and the inquest will be held this morning.

Mr. Mohlmann was born in Beardstown in 1866, being 46 years of age at the time of his death. He was married in 1892 to Miss Rose Leggett of Virginia, Cass county, and she survives him and two children, Norma and Walter. He also leaves one brother and three sisters, Albert, Mrs. Lillie Mohlmann and Mrs. Thompson of Beardstown, and Mrs. John Bosenbury of Rock Island.

The furniture store, of which he was proprietor, had been established by his grand father in 1848, and it was one of Beardstown's oldest and widely known business places. For number of years Mr. Mohlmann had conducted an undertaking establishment in connection with the store. He was a member of the Masonic lodge, Elks, Order of Foresters, Eagles and Red Men.

No funeral arrangements have been made.

NOTICE TO REPUBLICANS

A meeting of the Morgan County Republican Central committee will be held this afternoon at one o'clock in the Yates building, above the Gilbert pharmacy on West State street. All members of the committee and Republicans generally are urged and invited to attend this meeting.

M. L. Hildreth, chairman.
F. E. McDougall, Sec.

WITH SICK PEOPLE

William H. Cully, who underwent a serious operation at Orr Saviors hospital recently is now improving in a gratifying way.

E. M. Nicholson of the Western Union is sick at his home on North Church street.

Miss Clara Cully, daughter of O. W. Cully of Sandusky street, is reported quite ill.

ELECTRICAL EXPERT INSPECTS
LOCAL LIGHTING SYSTEM

J. M. Bryant of University of Illinois Will Sum Up Local Conditions and Make Report—Visited Light Plant Friday.

J. M. Bryant, assistant professor of electrical engineering in the University of Illinois, came to Jacksonville yesterday to examine the local situation as to a lighting system. Mr. Bryant was shown all about the residence portions of the city, visited the city light plant and the plant of the Jacksonville Railway & Light company. He will collect some other data this morning and this afternoon will return to Urbana. A written report to the Chamber of Commerce is expected from him within a few days' time. Mr. Bryant came at the suggestion of the Chamber of Commerce, the directors believing that the opinion of an electrical expert on the local situation would be of value.

Mr. Bryant was taken in R. T. Cassell's automobile all over the city, the party including Mr. Cassell, H. J. Rodgers, Dr. Lowe, Commissioner Brennan, Commissioner Newman, J. W. Catherwood and Secretary Pritchey. The purpose of this trip was to give Mr. Bryant an opportunity to see the condition of city wires and to note the problem of lighting heavily shaded streets.

At the city plant Mr. Bryant was shown through by Mr. Brennan, who gave the visitor all possible information about the plant and its operation. Mr. Bryant took particular notice of the new dynamo and engine which he said were of modern type and well worth the money paid for them.

It is understood that the report Mr. Bryant will prepare will give his opinions as to the best plan for lighting a city of this size and how such a system could be adapted to the local plant. Estimates will be given on the probable cost of a plant to furnish light for the system consisted the best. The report may or may not deal with the question of the relative economy of buying power or producing it through a municipal plant.

At the light company's plant Mr. Bryant also went over the machinery with care as Mr. Miser had asked for any suggestion which could be made to lower the cost of production.

PATRONS, NOTICE.

W. E. Allen, driver, is no longer in our service. Earl Poland will assume his duties and will call for your bundles at the usual time.
Barr's Laundry.

SUDDEN DEATH AT MT. STERLING

Mrs. D. E. Van Brunt of Jackson, Mich., a sister of Mrs. G. S. Russel, of this city, is dead at the old family home in Mt. Sterling, Mrs. Van Brunt recently sustained a fall from a ladder on which she was standing and her injuries which seemed slight at the time, brought on the disease which caused her death. The deceased with her sisters, Mrs. John Carlet of Jackson and Mrs. Russel of this city had but recently gone to Mt. Sterling to visit their brothers.

Special display of Detroit made furs, Frank Byrns Hat Store. See adv. page 12, this paper.

THAT SIGN AT SCOTT'S

The new electric sign at Scott's theatre attracts a great deal of attention. At each end of the sign is an ornamental design of electric bulbs which do not change but the letters in "Scott's" are intermittently lighted and the effect is such as to attract continual notice. Manager Scott spares no expense in keeping his theatre attractive and up to date.

BURLINGTON HARD
ROAD CHANGES COURSE

ROUTE WILL GO TO BEARDS-TOWN VIA ARENZVILLE.

Citizens of Arenzville Attend Meeting in Large Numbers and Secure Wish—Route to be Extended on to Minneapolis—Way to be Marked and Folder to be Issued.

The annual meeting of the officers of the Burlington highway, to be constructed from St. Louis to Burlington, Ia., was held Friday in Beardstown and was largely attended, Jacksonville being well represented. An important item of business transacted by the company was the changing of the route out of Jacksonville to Beardstown from Virginia to Arenzville. It was also voted to extend the line next year on to Minneapolis.

The meeting was called to order by President C. J. White, with George Coleman acting as secretary. Arenzville was represented by nearly a hundred citizens, who distributed badges of white ribbons saying: "Mark the Way via Arenzville." They were also joined by a large delegation from Concord. They were so enthusiastic and created such a sentiment in their favor, that the association voted to change the route out of Jacksonville to Beardstown, going via Concord and Arenzville, instead of Virginia, as had formerly been designated. Virginia was not well represented at the meeting so there was little opposition from this quarter.

The changing of the route necessitated a change in officer. David Salenstein, a vice-president of Virginia, was succeeded by Herman Enslach of Arenzville. Samuel Blomberg of Concord was voted a vice-president.

A motion was made and carried that the road be extended from Burlington, Ia., next year, to Minneapolis, which means that the road will intersect the Lincoln highway, which cuts through the northern part of Illinois.

It was voted that the money now on hand should be used in marking the route and improving the road. All poles along the route will be painted and signs will be erected at the cross roads.

It was also voted to issue a pamphlet, which would tell all about the route and a history and names of business men and firms of each city and village. This vest pocket book will contain some valuable data and will be widely distributed. Two committees were appointed, one to see about the folders and another to see about marking the way.

Beardstown was most hospitable in their treatment of the many visitors present. The Chamber of Commerce gave them a splendid 6 o'clock dinner in the Elks' club rooms. The association voted to hold their next annual meeting in Beardstown, Aug. 3, 1914.

Among those who attended from Jacksonville were David Estaque, John Clary, John F. Clark, James F. Self, T. H. Buckthorpe, Roy Craig, and from Chapin were A. L. French, C. S. French, Richard Duckett, Andrew Allen, Riley Mathers and Clarence Duckett.

Men have no trouble to select a desirable hat when they visit FRANK BYRNS Hat Store.

BIRTH RECORD.

Born to Mr. and Mrs. Jesse Fuller of Murrayville Friday morning a son, David Thompson Fuller. Mrs. Fuller was formerly Miss Ruth Thompson of Murrayville.

GRAND OPERA HOUSE
FRIDAY, OCT. 31stA LAUGH THAT ROLLS INTO A THOUSAND
DIRECT FROM 2 YEARS RUN IN CHICAGO AND NEW YORK CITY

TO THE
THEATRE-GOERS
OF THE
CITY AND VICINITY

Cohan & Harris, foremost of producers, are sending to our city the greatest melo-dramatic farce of the century and I want to greet them with a capacity house, which will insure us of all their attractions playing here in the future.

Today and Saturday, York, King and Avery return with an entire change of bill. A splendid vaudeville feature, "The Widow From New Jersey." Great pictures, too.

Facts in Nature

FOR centuries it has been known that Nature's most valuable health giving agents for the cure of disease are found in our American forests. Over forty years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute at Buffalo, N.Y., used the powdered extracts as well as the liquid extracts of native medicinal plants, such as Bloodroot and Queen's root, Golden Seal and Stone root, Cherry bark and Mandrake, for the cure of blood diseases. This prescription as put up in liquid form was called

DR. PIERCE'S

Golden Medical Discovery

and has enjoyed a large sale for all these years in every drug store in the land. You can now obtain this powdered extract in sugar-coated tablet form of your medicine dealer, or send 50c in one-cent postage stamps for trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N.Y., and tablets will be mailed, postage prepaid.

The "Golden Medical Discovery" makes rich, red blood, invigorates the stomach, liver and bowels and through them the whole system. Skin affections, blotches, boils, pimples and eruptions—result of bad blood—are eradicated by this alternative extract—as thousands have testified.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, clothbound ADDRESS DR. T. V. PIERCE, BUFFALO, N. Y.

Buy From the Owner

I will make attractive prices for cash or time payments on the following farms I own.

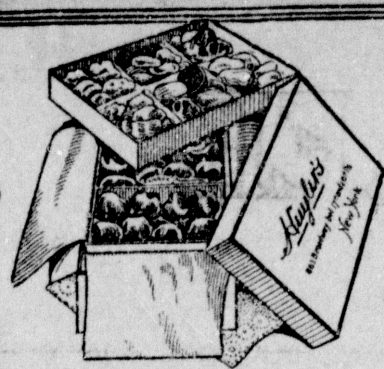

200 acres in Adams county, near Clayton. An excellent stock and grain farm.

170 acres near Macon, Mo., well improved and good land. These are good buying chances

PARENT-TEACHER'S ASSOCIATION

Special Meeting in Behalf of Manual Training Held in Second Ward.
A special meeting of the Parent-Teacher's association of the second ward was held Friday afternoon, at the Lafayette building. The association is endeavoring to assist in establishing a manual training department for that school and Miss Anna Brown, who is head of the manual training is already superintending the laying of floors and others work. All together it will cost about \$200 and the ladies are endeavoring to raise this money through candy sales, markets and selling tickets to the picture shows.
After a song by the pupils of Miss Sheehan of the first grade, Miss Loggengren of the School for the Deaf, gave two readings and an address on the educational efforts of the ladies. Mrs. W. T. Wilson, presided over the meeting and it was a profitable gathering in every way.

Most Dangerous of Minor Ailments
Of the minor ailments a cold is by far the most dangerous, not in itself but the serious diseases it so often leads to. Pneumonia and consumption always start with a cold. When you have a cold you are much more likely to contract the infectious diseases such as diphtheria, scarlet fever and whooping cough. Colds are easily cured, in fact, Chamberlain's Cough Remedy is famous for its cures of this most common ailment, and is pleasant and safe to take. Why take such desperate chances when so reliable and trustworthy a medicine may be obtained for a quarter. For sale by all dealers.

ABEL M. HALLOWELL DIES IN CHICAGO

PASSED AWAY SUDDENLY LAST NIGHT AT 6 O'CLOCK.

Former Well Known Jacksonville Citizen Succumbs After Long Illness—Was Prominent in Masonic Circles—Burial Will Be in Chicago

A telegram was received last evening announcing the death of A. M. Hallowell at the family residence 4850 Winthrop avenue, Chicago, 6 p. m. Friday. His son, Lamar Hallowell, who resides near him, had just concluded a short call and Mr. Hallowell was sitting in his chair. He had called to his wife to read to him from the evening paper. She no sooner had started to read before he fell backward in the chair, gave a gasp and was gone. Medical aid was summoned, but to no avail.
Mr. Hallowell had been in failing health since leaving Jacksonville in 1911 and it was on account of poor health that he disposed of his business here. He had been in a serious condition, troubled with dropsy and complications and although a great sufferer at times, was ever hopeful and believed that some day he would be better. His family, however, realized that he was far from being well, although they little thought that the end was so near. For the past week he had been up and about the house and appeared in his usual strength.
Mr. Hallowell was prominently identified with the Masonic lodge. He was a member of Jacksonville lodge No. 570, Hospitalier commandery No. 31, Jacksonville chapter No. 2, Jacksonville council No. 5, Peoria Consistory, Peoria, Peoria, Springfield Lodge of Perfection, honorary member of Chicago Chapter Royal Arch Masons. Mr. Hallowell was saving his strength in order to attend the sessions of the grand lodge next week and was in line for the office of grand high priest of the Grand Chapter of the state of Illinois.

Abel Milton Hallowell was born May 3, 1858, in Norristown, Pa., and at the time of his death was 65 years of age. He came to Jacksonville in 1890 and was employed by the jewelry firm of Jebb Bros., and later by Bassett and Fairbank. He went in business for himself on South Sandy street in 1905 and continued so until 1911 when he moved his family to Chicago. Mr. Hallowell made many friends in his quiet way and his friendship was ever valued. He was interested in that which stood for the best in the community and whatever he undertook he put his whole heart and effort in the work. His sudden passing away will be learned with much sorrow by friends here.
Besides his widow he leaves one son, Lamar, of Chicago and four grandchildren. His other son, Straley Hallowell, was accidentally killed last March in Philadelphia. He also leaves one brother, Lamar, of Philadelphia, and a sister, Mrs. Alice Harmon of Norristown, Pa.

The funeral will probably be held Monday or Tuesday in Chicago in charge of Apollo Commandery.

THE JACKSONVILLE JOURNAL Established 1843 Published by JACKSONVILLE JOURNAL CO.

The question was asked the writer why the old-time combination—a booze absorber and dispenser—was more to be respected than the later date saloon keeper who was himself a total abstainer. The old-timer was pickled in his own slop—he could often plead that he was not in condition to realize the harm he was doing—his own brain was so befogged. But the other fellow is a good deal like the man who deliberately takes a gun and goes out quietly to kill, regardless of the consequences to others. His own "total abstinence" is a confession that he is fully aware of the evils of the traffic and of the disorders attending the use of the stuff that he desires a "license" to sell. One is a "brain-storm" brought on by their own bad habits—the other is deliberate, premeditated.

We do not care to say that all men who have engaged in the saloon business have been bad personally. Men have been led into the business to make money, thinking they might remain clean—but for the self-respecting man the traffic has only brought trouble and perhaps disgrace. Some retired before complete ruin, some remained in the game because they thought they could not get out.

No, all saloon keepers have not been bad men, no more than that all men who have taken a drink have become drunkards. But the percentage of failure and ruin and wreck have been too great. Why take the chances?

Given the difference in the number engaged in the whisky trade and the number of consumers and the percentage of ruin—and we have no doubt the saloon keeping class has furnished the greatest number of derelicts—human wrecks.

We do not assume that men engaging in the saloon business do so with evil intent. They may be honest, but from our stand point, mistaken in their views. By the time they realize the dangers of the calling it is too late to undo the evil they have done to themselves and to others.

Governor Dunne has acted wisely in the selection of Superintendent H. C. Montgomery as a delegate to the annual meeting of the National League of Compulsory Education officials, to meet in St. Louis. It is a pleasure to be able to compliment the governor. Mr. Montgomery has justly acquired a high place in educational lines.

Morgan county Democrats have not been accorded proper recognition in the appointments so far announced. Very few Democrats from this section have received recognition. So far as we know, Thomas Kendrick, our well-known "Tommy," is the only Morgan county man holding a "job" in the state house, under appointment by the present Democratic heads. If there are more we stand ready to print the official list. Of course it is recognized by all that Thomas J. Kendrick is a worthy representative of Morgan county Democracy.

The governor is to be complimented on his position, recently announced, that there would be few or no changes in our state educational institutions until it was possible to select Democrats of equal ability as present incumbents. That is right—appoint Democrats if you must—but safeguard the interests and welfare of the wards of the state.

Sleep at School.

A new wrinkle in school work comes from St. Faith's school, Wandsworth, England, where tired children may sleep in hammocks during lesson hours. The children so favored are four or five years old, the infants of the school. Every afternoon a siesta in hammocks for tired children is provided, and they may sleep between or even during lessons. The infants are encouraged to rest because it is contended by a Miss Wild, who devised the hammocks, that the mind of a tired child can not retain the lessons taught.

Ceylon Bullock Carts Passing.

Owing to heavy mortality among the bullocks used for transporting plantation products in Ceylon, due to rinderpest and foot-and-mouth disease, a revolution seems to be impending in this island, in the substitution of motor lorries for the picturesque but slow and cumbersome bullock carts which for centuries have been the chief means of conveying goods in Ceylon.

A sure thing: best bargains in clothing always at Knoles'.

Altogether Too Successful.

Quizzer—"What's the matter, old man? You look worried." Sizzer—"I have cause to. I hired a man to trace my pedigree. Quizzer—"Well, what's the trouble? Hasn't he been successful?" Sizzer—"Successful! I should say he has! I'm paying him hush-money."—Judge.

Football—Bradley vs. Illinois today, 3 p. m., Illinois field.

Our First Newspaper.

The first American newspaper was published in 1704 and to 1788 there were 78 published, 16 of which were conducted by women and 14 of which were the firm champions of liberty and equal rights.

Rather Risky.

The man who always closes his eyes to the unsightly things in life is apt to slip up on a banana peel.

Read the Journal: 10c a week.

RAILROAD NOTES.

R. A. Webster, agent for the Traders Dispatch Fast Freight line, with headquarters at Peoria, was calling on local railroad men yesterday. His line is connected with the Nickel Plate and Lehigh Valley roads in the east.

Dwight Kastrop, first trick operator at the Burlington, has been delayed in taking an expected vacation owing to the difficulty in getting a substitute for him while he is absent.

W. F. Tatehoff, division superintendent of the Burlington, passed through the city yesterday in his car No. 74.

Blairford Violet, Burlington roadmaster, with headquarters at Beards-town, passed through the city yesterday.

The engine on No. 86, meat train north on the Alton, broke a main rod just south of the city and tied up traffic for several hours yesterday. The accident caught the morning passenger train south in this city and held it a long time.

C. N. Smith, traveling passenger agent for the Southern railroad, was a visitor with local railroad men yesterday.

At the Car Shops.

Number 27, passenger engine, will probably go out today on her trial trip after a complete overhauling. She was to go out several days ago but the workmen were hindered somewhat in completing the repairs on her.

Number 24, passenger engine, is about ready to leave the round house and make a trial of her work. She looks fine and every way in good shape.

The break in the cylinder of number 45, freight engine, has been repaired and she will soon be ready for business again.

Number 54 has at last gotten in out of the wet after waiting so long a time. She is being rapidly dismantled and put into shape and will in due time shine out in a new dress.

Number 56, freight engine, is waiting her turn in Springfield for a place in the shops for overhauling.

The box or casing of the headlight of old number 1 is lying at the door of the round house and when the writer sees it he is reminded of many years ago when the engine of that number used to ply between this and other places and do good work.

Frank Stiger, of this county, has been employed as helper in the machine shop.

A whole car load of boiler iron was received yesterday and Mr. Doerfler and his men will proceed to punch it and rivet it in shape for good work on the road.

General Manager Ramsey is a machinist of no small merit which may be news to many of his acquaintances. He invented a new valve motion for engines and it is a fine thing with good results.

W. J. Doerfler, foreman of the boiler shop, expected to enjoy Saturday night and Sunday with friends in Springfield.

Richard Dresser, boiler maker, was engaged in work a day or two ago when accidentally a piece of copper lodged in his right eye. He was so anxious to get through with the job on hand that he neglected to go to the doctor at once as he should and now he has a rather bad eye.

Beginning with yesterday the hours at the shops were lengthened to nine daily, which was welcome news to the men, as it means an increase of pay at the same time.

Orders have been received to build a number of new cabooses, probably about eleven, and it will keep the carpenter or wood shop going for some time.

C. S. Branch, superintendent of mechanical department, visited the shops a day or two since and seemed pleased with the general appearance of things.

Supt. Ingrand and his foremen and all others are now on their mettle, having had put into their hands virtually the whole construction of a new engine throughout. It will be numbered, probably, 68 as it is in the 60 class and will have eight drivers. The boiler and fire box are now on the frame and the cylinders are bored and set. It is to have the Ramsey valve motion and will be a daisy when done. Mr. Ingrand has set his stake to have it out in a month and has orders from Mr. Branch to set everything else aside for it. This is to be a brand new engine with nothing old in it and the men are eager to show what they can do and if it is a success more like it may be ordered. It will probably cost \$15,000, of which at least \$10,000 will be in work. The work will be well cared with much interest and all hope it will be such a success that more new engines will be constructed here.

HELP WANTED.

Experienced help wanted on sewing machine at Jacksonville Tailoring Co.

Stomach Trouble and Constipation Cured.

"I was sick for three years with stomach trouble and constipation, doctored continually with different physicians, with only temporary relief," says Mrs. Hester Waite, of Antwerp, Ohio. "A friend advised me to try Chamberlain's Tablets, which I did, and continued to use them for one year, and they completely cured me, not only of the stomach trouble but also of the constipation." For sale by all dealers.

To Remove Stains.

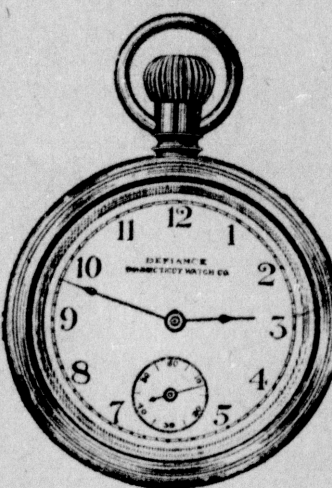

Grass stains may be removed from washable fabrics by rubbing with fresh lard before washing.

THE TEMPERATURES.

The temperatures for Friday, according to G. H. Hall, weather observer at Alexander were: maximum 64 and minimum, 29.

Rather a "Tall" Yarn.

Ralph of Coggeshall, an English abbot of the thirteenth century, told a staggering yarn: The Orford fishermen brought up one day in their nets a sea man who had no hair on his head, but a long ragged beard. Kept in Orford castle, he ate fish and meat both raw and cooked, but could not be made to speak. Yet, when the fishermen took him out one day for a swim, though he dived under the nets which they spread to prevent his escape and grinned derisively at them, he followed them back to land and captivity. At last, however, the "wild man" had had enough of it, managed to escape to sea and disappeared.

Broken Leg Set by Concrete.

A laborer in Columbus, O., had his broken leg partially reset by the concrete which had been dumped on him from a bucket. The blow of the bucket broke his leg, and the concrete, flowing out, made a firm cast around the limb. The doctors who finally got to work on the broken bone had first to remove the concrete, and report that the cast had done its work very well, even helping to reset the bone.

MIGHT GIVE GRAND JURY EVIDENCE.

Editor Journal:

I have been interested in what has been said through the publicity bureau of both the "drys" and "wets" in the local option campaign in which the voters of Jacksonville precinct are now engaged. I wish to compliment your editorials. They have been to the point, fair and a proper defense of our city and county officials against the attacks made upon them by implication at least.

They have been truthful statements of the respect for decency, morals and the enforcement of law entertained by the large majority of Jacksonville residents, whether "dry" or "wet."

I do not claim that conditions are ideal in Jacksonville, but after a residence of a number of years and an excellent opportunity of knowing them, I am certain that there has been a wonderful improvement in a half dozen years.

I was also pleased with the communication in your paper of October 22, signed "A Club Woman and Voter." Who is more interested or have a greater right to be heard on this question than the women?

(ADVERTISEMENT)

What We Believe

1. That temperance is right and that prohibition is wrong.
2. That you can vote a county dry, but cannot vote people dry.
3. That a man who needs a law to make him temperate needs brains more than anything else.
4. That a man who is incapable of choosing for HIMSELF between good and evil makes a poor guardian for others.
5. That it is wrong to ABUSE the right to drink, but WORSE to rob ALL men of that right because a FEW abuse it.
6. That a blind tiger is worse than the worst saloon.
7. That regulation is better for temperance than prohibition.
8. That you cannot promote temperance by closing legitimate saloons and converting beer drinkers into whisky drinkers.
9. That when a man has not the liberty to enter a restaurant anywhere and order for himself what he wants to eat and drink, he has no liberty worth bragging about.
10. That evil consists in the abuse of good things, and that it would be idiotic to abolish ALL good because some men abuse freedom of choice.
11. That a boy who needs a prohibition straight jacket to prevent

12. That only through freedom of choice can man develop the faculty of self-control.
13. That without self-control true manhood cannot exist.
14. That without freedom of choice there can be no manhood, and no morality, as God cannot credit any man with morals for doing a thing which OTHERS COMPEL him to do.
15. That without personal liberty there can be no personal responsibility, or personal morality.
16. That God made man ABLE to stand but FREE to fall.
17. That all who would promote temperance by LAW, or would rob man of his freedom of choice, ANTAGONIZE the Divine Order.
18. That Christ drank wine and made it for others to drink. (See John, Second Chapter.)
19. That if prohibitionists are right in their contention, JESUS WAS WRONG.
20. That if Jesus was right, prohibitionists are WRONG.
21. That it CANNOT BE Christion to prohibit ANYTHING which JESUS PRACTICED.

Jacksonville Business Men's Protective Association.

According to the statement of Mr. Gardner, conducting the campaign for the "wets," he is a "welfare worker of experience, etc."

Assuming that he is and his press statements as to conditions in this city are correct, have not the residents of Jacksonville precinct—the parents of the boys and girls whose morals have been degraded and debauched by "the keg parties" of which he writes so knowingly—the right to expect that he will confer with State's Attorney Tilton, Sheriff Rogers and Chief of Police Davis and give them the information on which his statements are based?

A welfare worker will willingly and gladly give himself to upholding law and the advancement of decency and morals, if he is interested in the public. He will gladly confer with those who are to safeguard the great general public. A personal welfare worker is one employed to work for the advancement of a certain cause or of certain interests and the measure of his personal interest is the amount to be paid each week. To which class does Mr. Gardner belong?

If Rev. Mr. Gardner is a lover of humankind, of morals, of good homes, of good government—if he is the father of children whom he loves and for whom he would have others do as he would do by them, he will in kindness and candor go with the officials to the parents of those who have gone so far astray and give them the benefit of what he has learned as to their children's habits and misdoings. This will take courage. It will take manhood. It will help his cause tremendously and will be an exemplification of Christian manhood, which is indeed rare in this world.

The Morgan county grand jury meets early in the coming month. It would be entirely proper for State's Attorney Tilton and Sheriff Rogers to summon Rev. Mr. Gardner to appear before that body to give it the benefit of his knowledge as to conditions in Jacksonville. Perhaps a part of this information has come to Mr. Gardner from the members of the Business Men's Protective Association and there might not be any impropriety in including them in the same summons with Mr. Gardner.

This will make for better citizenship, or better morals and for better government, which I understand to be the aim and hope of sincere welfare workers.

Interested Citizen.

IF.

Many a good fellow would be battling 400 in the game of life if there was any way to cash Kelley Pool enthusiasm.—Judge.

KILL CATARRH GERM USE BOOTH'S HYOMEI

Try the sure and most effective way to reach the raw, tender inflamed mucous membrane infested with catarrh germs—breathe Hyomei. All druggists sell it. You cannot reach the nooks and crevices of the breathing organs with liquid preparations; there is only one way—breathe a few times daily the germ-destroying air of Booth's Hyomei. It acts directly on the inflamed membranes and destroys the catarrhal germs. If you suffer from offensive breath, raising of mucus, frequent sneezing, husky voice, discharge from the nose, droppings in the throat, spasmodic coughing, or any other symptoms of catarrh, use Hyomei at once. It will destroy the disease germs in the nose, throat and lungs, and give quick and permanent relief, or money refunded. The complete outfit including pocket inhaler and bottle of liquid costs \$1.00, extra bottles of liquid if later needed, 50 cents.

BUSINESS CONTINUES FAIRLY SATISFACTORY

COOLER WEATHER STIMULATES BOTH RETAIL AND WHOLESALE TRADE.

Volume of Distributive Trade Holds up Well Though Not as Large as Some Weeks Ago Nor as Heavy as a Year Ago—Large Primary Markets Report Some Recessions in Trade.

New York, Oct. 24.—Dun's Review will say tomorrow: The business situation continues fairly satisfactory although evidences of a reactionary tendency are manifest in certain branches of trade. Cooler-weather has stimulated both retail and wholesale distribution of seasonable merchandise in numerous sections but unusually low temperatures at the south have led to reports of further damage to cotton. Conditions in iron and steel still reflect curtailment of operations with additions to idle forces and there is a less optimistic sentiment. Reductions in prices are more frequent, yet railroad demands are becoming more of a feature and consumers are urging deliveries.

Bradstreet's Review.

New York, Oct. 24.—Bradstreet's tomorrow will say:

Despite irregularities of weather and the natural ebb and flow in trade currents, the volume of distributive trade holds up well, though probably not as large as some weeks ago nor as heavy at some centers as a year ago. The first touch of winter has benefited retail trade in winter wear clothing, drygoods, shoes and rubber goods. In the northwest this has helped orders from jobbers. In the southwest the disposition is to go carefully. Large primary markets report some recessions in trade but in some lines inability to get goods is at the base of the slackening. Early reports as to holiday trade are good. Business failures for the week were 246 which compares with 229 in 1912.

Do You Dread Your Meals? You food does you little good when you have no desire for it, when you dread meal time. What you need is Chamberlain's Tablets. They will sharpen your appetite, strengthen your digestion and give you a relish for your meals. For sale by all dealers.

FIVE MINUTE CURE IF STOMACH IS BAD

When "Pape's Diapiesin" Reaches Stomach All Indigestion, Gas and Sourness Disappears.

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs. Pape's Diapiesin is noted for its speed in giving relief; its harmlessness; its certain unfailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eruptions of acid and undigested food—remember as soon as Pape's Diapiesin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.—Adv.

What Astonished Canadian. A Canadian paying his first visit to London was asked what he thought of it. "Well," he replied, "it is as astonishing the number of people who have got a shine on their boots in the morning." He then explained that over on the other side landladies never brush boots, with the result that people of both sexes get into a habit of patronizing "shoe shine parlors" when they want their boots cleaned.

QUICK RELIEF FOR RHEUMATISM.

George W. Koon, Lawton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began the use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dressed herself and walked out for breakfast." Sold by L. P. Allcott, druggist.—Adv.

Tributes of Confidence to Neal Drink and Drug Cure.

Doctor B. E. Neal originated and perfected the Neal three-day treatment after spending over 20 years in study, investigation and experimentation. Hon. James E. Bruce, a leading Iowa banker and State Senator, became convinced of the merits of the Neal three-day treatment and opened the first Neal Institute at Des Moines, Iowa, in December, 1910. Other bankers, business and professional men, after investigation, have caused 40 splendid Neal Institutes to be established in principal cities from Sydney, Australia, to Portland, Maine. The Australian Government, after two years' investigation of other treatments in foreign lands, adopted the Neal three-day treatment in October, 1910, and established a large Government Neal Institute at Adelaide.

There are today over 100,000 beneficiaries and friends of the Neal three-day treatment, and it has been publicly endorsed by thousands of prominent men and women in the United States and foreign countries. The head Neal Institute of all, is the hundred thousand dollar modern building owned by this company and located in the beautiful Drexel Boulevard residential district of Chicago, at 811 East 49th Street, phone Oakland 439. The SPRINGFIELD, ILL., Neal Institute is the fine old "Leland Home," located in the beautiful grounds near the Country Club, phone Main 6868. Call, write or phone as above for address of 58 other Neal Institutes and full information.

CHICAGO AND PURDUE CLASH TODAY IN FEATURE OF DAY'S FOOTBALL PROGRAM

OUTCOME OF GAME WILL DECIDE CLAIM OF EACH COLLEGE TO CONFERENCE CHAMPIONSHIP

Game at Chicago Should Be a Brilliant Contest of Backfield Men—Contest of National Interest Will Take Place in Nashville When Michigan Meets Vanderbilt—Princeton-Dartmouth Struggle Most Important Eastern Contest.

CHICAGO, Oct. 24.—Arriving in line of battle their strongest battalions for a decisive conflict, Chicago and Purdue meet here tomorrow in the feature event of the day's central states football program. On the outcome of the game hangs the claim of each college to the year's conference championship and with a full realization of the importance of the game, coaches, trainers and players have striven together to place in the field their best teams in the best possible condition.

Chicago rooters take hope from their belief that Coach Stagg has a lot of maneuvers in his repertoire which he did not find necessary to uncover in the Iowa game last Saturday; straight football was enough to beat the hustling Hawkeyes, though it took the best of the Midway team had to stop them. Whatever dread of the outcome Stagg feels is based on reports of the meteoric flights of the Purdue half back is likely to make. The game should be a brilliant contest of backfield men—Olliphant, Applegate and O'Brien on one side and a trio of stars just as bright on the other in Norgren, Gray and Pierce.

A game of nation-wide interest takes place in Nashville tomorrow when Michigan meets Vanderbilt. A more or less battered team represents the Ann Arbor school but since its defeat by the Aggies last Saturday Coach Yost is said to have improved its general form. In the Dixie eleven, brought into great shape, it is said, by Dan McGugan, a Yost pupil, the Wolverines are likely to find as tough an opponent as the Lansing team proved last week.

Wisconsin's veterans hope to strengthen their hope for a successful year and regain prestige by downing the Michigan agriculture college team tomorrow. The Badgers held to a tie last Saturday by Purdue have devoted a hard week of training to preparing themselves for the team that downed Yost's men and late reports from Madison indicate a confidence in the outcome fully equal to that expressed by the Aggies.

An annual battle of more than usual interest is on the cards for Indianapolis, where Illinois and Indiana meet. The Hoosiers are inclined to favor the former and the game will prove a real test of Zupke's ability as a coach and of his team's caliber as regards to champion chances. Misfortune seems to follow the Northwestern team and the report from Iowa will have to be pretty severe for critics, to keep the Hawkeyes from beating the Purple at Evanston.

Games Today.
Purdue vs. Chicago at Chicago.
Illinois vs. Indiana at Indianapolis.
Michigan vs. Vanderbilt at Nashville.

Iowa vs. Northwestern at Evans-ton.
Michigan A. C. vs. Wisconsin at Madison.

North Dakota vs. Minnesota at Minneapolis.
Missouri vs. Ames at Ames.
Kansas A. C. vs. Kansas at Manhattan.

On general form this autumn the Quakers appear to have the advantage.

Harvard will have Pennsylvania State as its opponent tomorrow.

Originally Norwich university was booked but the game was called after the death of Halfback Belva, due to injuries received in the Norwich-Holy Cross game. Pennsylvania State already defeated by Washington-Jefferson 17 to 0 does not appear to be a formidable opponent for the crimson team and should go the way of Maine, Bates, Williams and Holy Cross, all of which have fallen before Harvard.

Pennsylvania State's conquerors, Washington-Jefferson, will try their hand at big game in facing Yale and again it will be possibly a roundabout method to compare the relative strength of the blue and the crimson.

Cornell is called upon to face a powerful aggregation in the University of Pittsburgh team which defeated Carlisle 12 to 6 the week after the Indians had won from Cornell 7 to 0.

To win, Cornell must prove superior in defensive tactics since the scoring ability of the two elevens is about on a par.

Games Today.
The principal games in the east are as follows:
Dartmouth at Princeton.
Pennsylvania State at Harvard.
Washington-Jefferson at Yale.
Carlisle at Pennsylvania.
Pittsburgh at Cornell.
Tufts at Army.
Maryland A. C. at Navy.
Adelphi at Lafayette.
Springfield at Brown.
Colgate at Trinity.
Ursinus at Swarthmore.
Amherst at Wesleyan.

Eastern Games.
New York, Oct. 24.—Football games which will demonstrate the ability of several of the big elevens are scheduled to be played tomorrow. In at least two cases it will be possible to tell by nightfall whether members of the so-called "big six" class measure up to the plans accorded them by their optimistic adherents.

SOME OFF-SIDE CRUISES.

Wisconsin boxing promoters are not getting rich on the contests thus far staged under the new Hedding law. Kenosha, Racine and Fond du Lac all have lost money, while Milwaukee in the three matches pulled off in that city broke about even. The "talents" demands have been excessive, and there is to be a general reduction in the guarantees from this time forward. Some of the boxers say they will not stand for a cup, but a "hard winter" is approaching, and with the game about crabbied in California, New York becoming tired of the play, small preliminary purses the rule elsewhere, those Wisconsin offers will look mighty sweet to the mediocre crop of pug in the limelight.

The university of North Carolina at Raleigh has closed its gates against all of the southern colleges carrying paid men on their football teams. The tar heels were they in the north would have their gates closed forever, because there is not a college team this side of the Mason and Dixon line which is not loaded down with players who draw pay for their services.

Vardon and Ray, the English professional golfers, who are gathering some of the American easy money, are running away from everybody in the games in the Portola tournament at San Francisco. The money is so easy that they hook up in both morning and afternoon matches.

Winter base ball stories will be unusually plentiful this season. The Players' Union in their demands for an even break in the contracts and numerous other reforms in the treatment of the players will disturb the peaceful slumbers of the managers for some months to come. Then there is that promised war which the Federal league is preparing to inaugurate just as quickly as the leaders can get squared away and show the coveted players the necessary coin to warrant their jumping out of the majors. It is claimed by the backers of the revolt that the money will shortly be in sight, and also that when the names of the players whom they have signed becomes known the big moguls will learn they are up against a Balkan bombardment.

Dr. G. Harris White, playing right field for the Sox entourage, is one of the sluggers of the tourist combination. Almost daily he clouts the ball for from one to three times and most of his drives are for extra bases. It always has been the aim of the Washington dentist to become a fielder when his pitching days were at an end, and this present tour certainly is developing his talent in that direction.

Rumor editors have placed Roger Bresnahan in charge of Brooklyn to succeed Bill Dahlen. Prexy Murphy of the Cubs says there is nothing but a winter's dream in the story.

The national coursing futurity now being held at Wymore, Neb., is one of the very best held in the United States in recent years. The third round run on Thursday narrowed the contestants down to sixteen dogs out of the ninety eligibles, and all were so nicely matched that it is going to be difficult to make the choices for the semi-finals and final runs. In the first round of the all-gate stake there were 96 entries, among them several veteran racers that were outclassed by youngsters. Large crowds follow the bounds, and the sport is keen.

Jack (Twin) Sullivan, who is so ancient that he will not let his age be known, was bested by a novice, Gus Christie, at Fond du Lac, Wis. The old warrior upset all dope when he sidestepped a knockout early in the game and then came back strong and was improving as the battle ended.

Freddie Welsh is about to contract a job that it will be difficult for him to finish. He announces he will "dog" Champion Ritchie throughout the country and show him up as a frost unless the Californian gives him a chance at the lightweight title. The native son just eats up "dog" and gets fat upon the diet.

Wichita, Kans., Oct. 24.—Robert Bergess, 20 years old, one of Fairmount college's star linemen, was dangerously hurt in the game with Southwestern college here today. He still was unconscious tonight at a hospital. Physicians say he has concussion of the brain and his recovery is doubtful.

Coe college, 13; Leander Clark college, 0.

YUSSIFF MAHMOUT IS KILLED BY BAND OF BULGARIAN BANDITS

Bulgarian Wrestler Is Shot Down and Killed by Bandits Because They Secured No Gold.

Chicago, Oct. 24.—Yussiff Mahmout, a Bulgarian wrestler, who met a number of American mat men, including Frank Gotch, by whom he was defeated, was killed by a band of Bulgarian bandits in the mountains near Silistria, his home, according to a story told by two Turkish wrestlers who arrived here today. Mahmout was a petty officer in the Bulgarian army during the late war and, according to their story, went to the town to draw some money to pay off the men in his command. Sixteen bandits, learning the purpose of his trip, waylaid him on his return, but because Mahmout had procured only orders instead of gold coin they shot and killed him. Mahmout's death occurred three weeks ago.

H. L. COLLEGE FOOTBALL SEASON TICKETS \$1.00 each at LUKE-MAN BROS., DREXEL, BYRNS' HAT STORE, COURIER and JOURNAL.

Packey McFarland has been endeavoring the past eighteen months to meet Ritchie, but the latter always has run out, and he will treat the Englishman likewise.

Rain the past week has prevented football practice to a great extent over all of the middle west, and as a consequence the wise ones are looking for many reversals of form in today's battles. The Hoosiers and the Hawkeyes have been hampered more than any of the other teams, but word from Purdue has the Boilermakers in good shape for the game with Stagg's Maroons. Alonzo says his team's fighting spirit alone will be responsible if he wins, because his men otherwise are not prepared.

WHITE SOX DEFEAT GIANTS AT BLUE RAPIDS

Crowd of 4,000 People See Game in Town of 1,800 Inhabitants.

Blue Rapids, Kans., Oct. 24.—Playing before a crowd of 4,000 people in a town of 1,800 inhabitants here today, the Chicago White Sox defeated the Giants by a score of 8 to 5. White was pounded by 10 Chicago players for four home runs, the drives being made by Chase, Schaefer, Weaver and Daly. The score: White Sox, 1913 110 20—8 12 6. Giants, 1913 100 020—5 11 2. Batteries—Benz and Daly; Wiltse and Wingo.

Cruel Papa.
"Your daughter loves me," insisted the impecunious youth, "and you refuse to let her have a husband of her own choosing. Yet you say you would deny her nothing." "That," said the old man grimly, "is exactly what I am doing."

Church 900 Years Old.
The nine-hundredth anniversary of the oak-walled parish church of Greenstead, near Ongar, Essex, England, has just been celebrated. The church, which is built of split oak trees, is the only one of its kind in the country, and bids fair to last another 900 years.

Knives is the friend of all who like best clothing at fair prices.

ALL YOUR TABLE NEEDS

In our grocery and meat departments we carry supplies of such variety that we can supply every table need. You will find that our food products are of high quality and that the prices are not of the "increased cost of living" kind.

North Dakota Farms On Crop Payments

If you are now renting and want to get onto a farm of your own, you will find an attractive proposition among our 20,000 acres of improved and unimproved North Dakota land. Improved lands \$32 to \$75 per acre; unimproved, \$20 per acre and upwards.

If you will come up to North Dakota with a full and complete farming outfit—and will either bring a good bunch of stock along or buy it here—you get one of our first-class farms in the famous Red River Valley or elsewhere, on the crop payment plan. You will have to make only a small cash payment.

Buy Now While Prices are Low

Are YOU interested? If so, tell us how large a farm you want; number of horses, cows, etc., and what farming equipment you have; and about how much of a payment you can make, and we'll make you a proposition. Write us at Fargo—or see Wilkinson Bros., our district managers at Jacksonville. Free literature.

Varnish Candles.

A good way to make your candles last longer than usual is the following: says the Montreal Star: Hold each candle by the wick and give it a coat of white varnish. Then lay candles away for a day or so to harden. The varnish prevents the grease from running and preserves the life of the candle many hours.

(Advertisement.)

THIS SPACE IS CONTROLLED BY THE PUBLICITY COMMITTEE OF THE ANTI-SALOON LEAGUE.

Some Questions for You to Answer.

Did the saloons in Jacksonville obey the State Laws or the City Laws regarding saloons? The same men largely would apply for saloon licenses were saloons voted back. Would these same men obey the laws in the future? I am from Missouri. Not even the great light which these brethren must have gotten from the great social welfare expert, the close student of social problems, the man who has stood face to face with the causes of our social unrest, who has bucked up against the problems of our cities, who has absorbed great goals of knowledge on the recreation problem, the liquor problem, the cause of crime, drunkenness, vice and every other old problem or cause abating about this mundane sphere, in fact not even the vouching for these men by the aforesaid social welfare expert, etc., even though he has traveled in the sunny south studying the problems of the southland, even considering that 13 weeks campaign in Kentucky, yes, it pains me to say it, but even considering the fact that he acted as public censor for some city commissioners and for them investigated most of our cities, not even all this would persuade me that these men would obey the laws any better next time than they did before. Honestly now, ain't it a fright? Wonder if any body is going to be "hook" in by such talk?

Another question: Really now is there, do you suppose, a single man, woman or child in this man's town who believes that a certain noted minister, social welfare expert, public censor for City Commissioners, etc., etc., and then some, is advocating the cause of the saloon in Jacksonville because of his overwhelming love for humanity and zeal for righteousness, or is he doing it for the cold cash he is paid?

Another question: When saloons existed in Jacksonville were they the center of the movement for good government, were they the prime advocates of clean living, right thinking, were their keepers the chief supporters of our churches and the other organizations of the city standing for things which are good and pure and clean, were the Y. M. C. A.'s, the Free Kindergartens, the Associated Charities, the Hospitals, fathered by and supported by their keepers. In short what uplifting agency in this community was the better for their existence or owed its existence to these saloons? Answer this, Citizen of Jacksonville, and you will hardly need any imported "Rev." to give you the answer.

When Jacksonville had saloons there were only two out of the twenty-seven that even pretended to obey the laws controlling them. How does it strike you now for these men

who were running saloons to talk about regulating and restricting? Would the burglar be a good man to make the laws relating to burglary? Would the White Slave be the proper person to draw the law on that subject? O yes, we, the saloon men of Jacksonville, will draw the ordinance controlling our business! Don't it take nerve? No body but an out of town "Rev." imported for the occasion would hardly have the gall to do it!

What do you think men and women of Jacksonville of an appeal for the saloon containing this: "We all need to get back to the teaching of the Great Teacher and learn of Him." Really now do you get it? The keeper of the White Elephant will open the services with prayer! The song service will be under the direction of the keeper of Splitz's place! Really now, ain't it nerve? Do you wonder than an out of town "Rev." has to be imported?

The Jacksonville Business Men's Protective Association. By the way how many Business Men belong to this high sounding organization? How many lines of business does it represent? How many Bankers does it enroll? How many Clothiers, Grocers, Hardware Dealers, Boot and Shoe dealers, Druggists, Jewelry Houses? Why not call things by their right names and have an organization entitled The Jacksonville Saloon Men's Protective Association?

Will some good brother or sister of this man's town please tell a waiting public what the Jacksonville Business Men's Protective Association is supposed to protect? But first who are these Business Men who compose this Association of pretentious name? We have seen a list of their officers but the list is not one to over awe. We wonder how many of the bona fide, old wool and a yard wide business men of the town are enrolled among its members. "If there is one thing that the business men are anxious to do in the present campaign above any other, it is to tell the truth about conditions in Jacksonville." We quote from the signed statement of the aforesaid association. If the real business men of this community stand for the saloon that is a condition which we all would like to know and it would have great weight in deciding the coming election. Would it not be a splendid idea to give to a waiting public a full list of the members of the association? Really now don't you know that every body knows that there is not a corpora's guard of the real business men of the community in the Association and that the bone and sinew of the organization are the ex-saloon men and their kind. Who is fighting for the saloon, in Jack-

sonville? Nobody but the saloon men and one imported preacher. God save the mark!

In the days of saloons Jacksonville boasted almost a dozen well open prosperous houses of prostitution. Voting out the saloons kind prostitution in Jacksonville. At the States Attorney, look up the records. Are we to presume that this is one of the businesses that needs "protecting"? By the way do you ever see or hear of a keeper of a house of prostitution who is not in favor of saloons. The business, as a business, simply can't exist without their aid.

It is claimed that fewer drunk men were seen when we had saloons. Therefore there is more drinking more drunkenness now than the (1). It is not true. More drunk men were seen then than now (2). If it were true and more were seen now than then what of it? T saloons and each one of them watered their business with a close eye. Do you think if a customer got little too much he was bundled out the street where he would disgrace upon himself? Well hardly. Your saloon keeper is not so unsophisticated. Bless your dear head if the man who was tanked up worth it he was sent home in a carriage, or he was taken home afoer or he was taken to a hotel and put to bed, or he was taken to a convenient room "up stairs" and put to bed, etc., etc., on down to the pe devil who was bundled into the bedroom and left to sleep off his dr on the floor. But he was not bundled into the street where he would be seen. That would offend society and besides would offend a customer. Ain't it a fright that such an "argument" is offered. And by a not social expert! Great Guns! What fools these mortals be!

N. B. Not every fish played a sucker takes the hook!

So the Jacksonville Business Men's Protective Association has ordinance which they say they me to ask the city council to adopt. So brethren, don't you know that a reason why the saloon was voted out of Jacksonville was that th were mixing altogether too much our municipal affairs? Some peop actually resented their good offic in such matters. Yes, "Brother" is true. An unfeeling communit wanted the saloons to let us run o own affairs instead of paternally running them for us. We have hea in a round about way that the sal conditions existed elsewhere.

course how such benighted ide could gain in standing in an e lightened community may be p comprehension to the mind of great social expert, fighting the cau of downtrodden humanity, but nev theless many were fools enough so think.

Can't Help But Admire Babies

Every Woman Casts Loving Glance at the Nestling Cuddled in its Bonnet.

A woman's heart naturally responds to the charm and sweetness of a pretty child, and more so to-day than ever before since the advent of Mother's Friend.

This is a most wonderful external help to the muscles and tendons. It penetrates the tissues, makes them pliant to readily yield to nature's demand for expansion, so there is no longer a period of pain, discomfort, straining, nausea or other symptoms so often distressing during the anxious weeks of expectancy.

Mother's Friend prepares the system for the coming event, and its use brings comfort, rest and repose during the term. This has a most marked influence upon the baby, since it thus inherits a splendid growing system of nerves and digestive function.

And particularly to young mothers is this famous remedy of inestimable value. It enables her to preserve her health and strength, and she remains a pretty mother by having avoided all the suffering and danger that would otherwise accompany such an occasion. Mother's Friend thoroughly lubricates every nerve, tendon and muscle involved and is a sure preventive for caking of the breasts.

You will find this splendid remedy on sale at all drug stores at \$1.00 a bottle, and is highly recommended for the purpose. Write Broadfield Remedy Co., 134 Lamar Bldg., Atlanta, Ga., and they will mail you sealed, a very instructive book for expectant mothers.

There is a wealth of instruction and comfort to be derived in reading this little book. It is plainly written, just what every woman wants to know, and will be a splendid little textbook for guidance, not only for yourself, but will make you helpful to others. And, in the meantime, do not fail to get a bottle of Mother's Friend at the drug store, and thus fortify yourself against any and all pain and discomfort.

ELECTRIC CURRENT QUESTIONS INTEREST

PEOPLE ARE WONDERING ABOUT EFFECT OF KEOKUK DAM ON PRICES.

No Special Benefits in Sight For Small Consumer of Power—Pittsfield Still Considering Franchise For Public Service Company—Contract Just Closed by Albion, Mich.—Superiority of Tungsten Lamps.

Just now all matters relating to city street lighting are of interest. L. W. Chambers recently received a copy of the Albion, Mich., Recorder which gives the details of the lighting contract that city of 8,000 population recently made with the Commonwealth Power company.

The lights to be furnished are about as follows: Forty-two lamps in the ornamental cluster district, burning all night at \$19 per lamp per year.

One hundred and thirty-three 100-watt lamps in residence district burning until 1 o'clock a. m., \$17 per lamp per year.

Ninety-eight 60-watt lamps in residence district burning until 1 o'clock a. m., \$13.50 per lamp per year.

Eighty-four 60-watt lamps in the ornamental cluster district burning until 11 o'clock at night, \$12.50 per lamp a year.

Forty-two 60-watt clusters of three each. One of each cluster will be kept burning from dusk to dawn; two will be kept burning from dusk to 11 o'clock each night.

The contract is for ten years and if during that period the Michigan Railroad commission adopts standard rates, these are to become effective. The company will furnish free to the city half 200 watts per month. Allowances are made for outages where lamps fail to burn properly. The company also agrees not to charge private citizens any higher rates than are charged citizens of Jackson or any the city served by this company.

Pittsfield Hesitates About Franchise. For several months the people of Pittsfield have been discussing the matter of a fifty-year lighting franchise with the Illinois Public Service company. The proposed franchise provides for an adjustment of rates every five years. As matters now stand, the company has offered to install and supply the current during the life of the franchise for ten ornamental light posts of three lights each, around the public square, also to furnish the city with one million kilowatt hours service for office purposes, etc., free of charge. In addition to this they offer to furnish service for the public library at about half price and to concede one or more other valuable concessions.

The Pike County Democrat says: "Just what the council is demanding, no one seems to know, but so far, the company's offer has been turned down. An informal test vote of the member's present was taken last night on the question of whether the council would grant a fifty-year franchise under any conditions or not. This vote, Mr. Anderson, the company's attorney explained, was asked for simply to see whether it was worth while to go ahead and prepare a franchise in detail to be submitted to the council. The vote was then taken, and with Alderman King absent, stood four ayes and one no. Alderman Rush casting the negative vote. On motion of Alderman Hirschelmer, Mayor Allen, City Attorney Johnston, Aldermen Burbridge, Rush and King were then appointed a committee to confer with Attorney Anderson in shaping a franchise to be submitted to the council at its November meeting."

Dam May Fail in Mission. Residents of this section of Illinois and Iowa are beginning to ask whether or not the big power dam at Keokuk is to cause a lowering in the cost of electric power to consumers. Talking on this subject the Burlington Gazette said recently:

"Congress granted the Stone & Webster people the right to utilize the waters of the Mississippi in this way and the understanding has been that we all were to receive the benefit, but if prices under the new system are going to be held as high as, or higher, than under the old, then the Keokuk dam project has failed in its mission, and we, who have looked forward to the completion of this enterprise, with this understanding in our minds, are doomed to disappointment if we see fit to peacefully and quietly accept it."

Nothing Better For Small Consumer. The Burlington Hawkeye commenting on the same subject sees no special relief in sight for the small consumer.

"The building of the dam at Keokuk will prove to be of vast benefit to this region in furnishing power for all sorts of manufacturing enterprises and for traction purposes which never would have been established in this part of the country but for it. If there is no decrease in cost to the consumer it will be wholly because of the distributor, not of the power company. If the power is costing Keokuk consumers more now than under the old system, the fault is with the Keokuk company that distributing it, not the Mississippi River Power Co., which makes it."

"The large plants will no doubt receive the benefit of the big dam power; and it will be the small consumer who must pay the higher prices—as always."

Favor Tungsten Lamps. A number of Jacksonville citizens have been interested recently in reading a University of Illinois bulletin on street lighting prepared by J. M. Bryant and H. G. Hake. This bulletin of sixty pages goes into the street light problem thoroughly and presents a number of tables and charts which indicate the cost of op-

erating street lights and the relative lighting values of lamps.

The authors of the bulletin seem to favor tungsten lamps as the best and most economical for lighting residence district. They say:

"The item of labor and supplies is large for the open arc, and for short burning flame arcs. In fact, the maintenance charge of these lamps is nearly equal to the total operating charge on some of the other lamps. This is not offset by a proportionately greater amount of light. In the tungsten lamps, the energy charge is rather more important than in most of the arc lamps, but the fixed and maintenance charges are low on account of the long life of these lamps. Although the cost of each renewal is rather high, only very few renewals have to be made each year."

A CLEAR COMPLEXION RUDDY CHEEKS—SPARKLING EYES—MOST WOMEN CAN HAVE

Says Dr. Edwards, a Well-Known Ohio Physician.

Dr. F. M. Edwards, for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, you will know them by their olive color.

These tablets are wonder workers on the liver and bowels, when cause a normal action, carrying off the waste and poisonous matter that one's system collects.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women, as well as men, take Dr. Edwards' Olive Tablets now and then just to keep in the pink of condition.

Dr. Edwards' Olive Tablets, the successful substitute for calomel—10c and 25c per box. The Olive Tablet Co., Columbus, Ohio.—Adv.

Active Service. A rather remarkable instance of a woman's long, unbroken record comes from France, where Mme. Laforest, the oldest woman postal official, has just retired after 49 years of service without once having been absent from her post, except during the recognized holidays. Entering the postal service in 1863 at the age of sixteen, she attained her sixty-fifth year last month, when, very much against her will, she was placed on the superannuation list and forced to retire from active service.

Hotel for Cats. A cat-lover, Walter Scott, has started a free hotel for cats at Cheshire, Connecticut. Himself an innkeeper, he has fitted up a large room in the basement of his hostelry, and there homeless cats can take refuge and get three square meals a day. There are now over 100 cats in the free hotel. Mr. Scott is so satisfied with his experiment that he is taking steps to establish a chain of hotels for cats.

I will not be responsible for any bills contracted by anyone but myself.

Hugh W. Shepherd.

"Hello"

"Send me another dozen of those silk hose I bought a while ago."

"Yes, they were McCallum's, and the most satisfactory I have ever worn."

McCallum Silk Hosiery

has all the beauty of weave and richness of finish which the particular person could wish. That is why the best dressed men and women wear it.

Matched mending silk with every pair.

At prices upwards from \$1.00 at the best dealers everywhere.

McCallum Hosiery Co. Northampton, Mass.

CHILDREN HATE OIL, CALOMEL AND PILLS

"California Syrup of Figs" Best for Tender Stomach, Liver, Bowels—Tastes Delicious.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

Don't Take the Lawyers Seriously. A lawyer in a courtroom may call a man a liar, scoundrel, villain or thief, and no one makes complaint when court adjourns. "If a newspaper prints such a reflection on a man's character," says the Hill City News Era, "there is a libel suit or a dead editor. This may be owing to the fact that the people believe what an editor says."—Kansas City Star.

Easy to Tell What He Thought. Little Jerome, aged five, heard his mother read from the beauty column of the paper that eating raw carrots would make one beautiful. A short time ago he was called into the room to view his baby sister for the first time. His mother asked him what he thought of her. Taking a good look at her, he answered in a disgusted tone, "Let's give her a carrot!"—Chicago Tribune.

Different Kind. Wife (anxiously)—I do wish you were in some other work, dear. I am in constant fear that you will touch a charged wire at the shop. Hub— "Oh, the charged wire at the shop doesn't bother me; what I have more dread about is the charged account at the store."

CLAIM: 30c COFFEE WINS MORE FRIENDS EVERY DAY.

Procrastination

is a thief of time, which means money; so have your house piped for gas or wired for electricity while we are doing it for cost.

12 MONTHS TO PAY

Come and see us or phone and you will be surprised at what little money it really costs to modernize your home.

CRAMPS, HEADACHE, BACKACHE,

Yield to Lydia E. Pinkham's Vegetable Compound.

Cedar Rapids, Iowa.—"I was always tired and weak and my housework was a drag. I was irregular, had cramps so bad that I would have to lie down, also a distressed feeling in lower part of back, and headache. My abdomen was sore and I know I had organic inflammation."

Compound and Blood Purifier have helped me wonderfully. I don't have those pains any more and I am all right now. There are a great many women here who take your remedies and I have told others what they have done for me."—Mrs. CHAS. MCKINNON, 1013 N. 5th St. W., Cedar Rapids, Iowa.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

There are probably hundreds of thousands, perhaps millions of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over 30 years ago by a woman to relieve woman's suffering. If you are sick and need such a medicine, why don't you try it?

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

LOANS WANTED

We have applications for first mortgage loans on real estate as below, which you can have at no expense to you except recording your mortgage. Abstract and insurance policy with each. Please call in person for full particulars.

\$1,000 at 7 per cent on city real estate worth \$3,000.

\$1,000 at 6 per cent on 40 acres Morgan county land.

\$1,600 at 6 per cent on 47½ acres Morgan county land.

\$1,600 at 7 per cent on city real estate worth \$3,500.

\$7,500 at 6 per cent on 136 acres Morgan county land.

The Johnston Agency

Notice to Poultry Raisers

We are now manufacturing, under state license, the best brand of chicken food on the market, known as "SUPREME CHICKEN FOOD." This food is far superior to any brand of chicken food on the market today. It is guaranteed under the Pure Food & Drugs Act, June 30, 1906, serial No. 47673. Guaranteed analysis as follows:

CRUDE FAT 6 to 8 per cent.
PROTEIN 22 to 24 per cent.
FIBRE 7 to 9 per cent.

WHAT IS "SUPREME CHICKEN FOOD?" It is a combination food consisting of meat scrap, steamed bone grit and a small percentage of clam shell grit; all clean and in a uniform size, and can be fed to large and small fowls. "SUPREME CHICKEN FOOD" is guaranteed to make your hens lay. It is the only ideal food for fall and winter use. Put up in 50 and 100 pound bags.

Price per 50 pound bag \$1.50
Price per 100 pound bag \$3.00

We are also manufacturing, under state license, the best brand of hog food on the market, known as "SURE FATTEN HOG FOOD." It is far superior to any brand of hog food on the market today. It is guaranteed under the Pure Food & Drugs Act, June 30th, 1906, Serial No. 47673. Guaranteed analysis as follows:

CRUDE FAT 10 to 14 per cent.
CRUDE PROTEIN 52.50 to 60 per cent.
CRUDE FIBRE 1 to 3 per cent.
PHOSPHATE 10 to 12 per cent.

WHAT IS "SURE FATTEN HOG FOOD TANKAGE?" It is a dark colored granular meal, made from meat residues, and it supplies the protein and phosphates necessary for compounding a balanced ration in most economical and palatable form.

It contains phosphates in proper proportion to insure strength of bone and frame work. In the corn belt bone development is a matter of serious consideration.

It is not a substitute for corn, but a small quantity fed in connection with corn or other grains gives a balanced ration.

It is the most economical source of digestible protein known, containing twice as much protein as oil-meal and five times as much as middlings, shorts, shipstuf, or alfalfa meal.

TANKAGE is recommended by all leading experiment stations. It is packed in one-hundred-pound burlap sacks, plainly marked "SURE FATTEN HOG FOOD." Analysis as above. It is the ideal feed to balance rations.

WHAT "SURE FATTEN HOG FOOD" TANKAGE DOES. It develops bone and muscle in young pigs and makes them grow. It matures a hog for market in two and three months quicker than corn alone, thereby saving one-third of the feed bill, one-third of the labor, one-third of the risk, increasing profits one-third.

It grows better proportioned hogs, more meat, and more fat, hence market-topper hogs. "SURE FATTEN HOG FOOD" Tankage fed hogs ship well with small shrink. While in no wise a medicine, it so fortifies and strengthens the system against attacks of disease germs that "SURE FATTEN HOG FOOD" Tankage fed hogs are universally healthy. Manufactured by the

MIDSUMMER BIRD LIFE IN ILLINOIS

INVESTIGATORS GIVE RESULTS OF TRAVELS IN THREE SEC- TIONS.

Estimates Show There are More than
Thirty Million Birds in the State
—English Sparrow Easily Wins
Honors for Numbers, With Meadow
Larks Second—Manner of
Getting Statistics Described.

(By Stephen A. Forbes, State Entomologist.)

In the course of a statistical survey of the bird population of the state of Illinois, begun with a view to a better knowledge of the significance of birds in the economy of nature, two field observers, A. O. Gross and H. A. Ray, engaged in this work as assistants on the state natural history survey, spent virtually a month of a summer period several years ago in each of the three principal sections of the state—June in southern, July in central, and August in northern Illinois. Selecting in each section a locality typical for that part of the state, they made regular trips on foot in various directions and to various distances, traveling always thirty yards apart, and noting as they went the species and numbers of all birds flushed by them on a strip of fifty yards in width, including likewise those flying across this strip within a hundred yards to their front. They kept record, also, by means of mechanical counters, of the distances traveled over each distinguishable kind of area, commonly marked by the crop which is borne.

The present article is a brief statement of a few of the more general results of a study of the materials thus brought together, illustrating the numbers and ecological distribution of the birds of Illinois during the relatively stable period of their summer residence—the time between the conclusion of the spring migration and the beginning of the fall movement to the southward. It is a period of breeding and steady habitation for our most permanent and characteristic bird population, and will best help us to an understanding of the main ecological significance of Illinois birds.

The Area of Observation.
The total distance traveled by my observers on these various midsummer trips was 428 miles (omitting fractions), of which 141 miles was in southern Illinois, 112 in central, and 175 in northern. The total area covered by this strict census of the bird population was a trifle over 12 square miles, or 7,693.5 acres—33 per cent of this acreage being in southern, 26 per cent in the central, and 41 per cent in the northern part of the state or approximately a third of this area in southern, a fourth in central, and two-fifths in northern Illinois. The field observations began in the south June 4, and ended at the north August 23, with the idea of avoiding, so far as possible, by this order of progress, different seasonal conditions. It was not possible, of course, to eliminate these wholly, with only one pair of observers; and it will fix our ingenuity, and sometimes perhaps overtax it, to detect these differences and to distribute them from those due to mere difference of latitude and of climate corresponding.

The total surface on which these precise midsummer observations were made was 1-4720 part of the whole state, and the question at once arises, was this area sufficient to give these results any general value for the state at large, and, if so, how may we be sure of it? There is, I believe, no mathematical method of determining the sufficiency of these data for generalization purposes, and I know of no test at present applicable except that of the general consistency and reasonableness of totals, averages and ratios, for the different districts and seasons, the presence or absence of which can readily be seen for himself as this discussion proceeds. If the data of observation are insufficient for the uses made of them, there will be a random variability and inexplicable irregularity in my statistical summaries which we shall not fail to notice.

General Product of the Survey.
Gross and Ray, identified during the summer, on territory covered by their data, 7,740 birds, belonging to 75 species. This is at the rate of 45 birds per square mile, or almost exactly 1 per acre, including the so-called English sparrow. If we omit the 1,414 interloping English sparrows observed—which is a little more than 18 per cent of the entire number of birds—we have remaining 5,277 native birds to the square mile. The total for Illinois, on this basis, is 39,750,000 native birds and 5,536,000 English sparrows, or approximately 14 summer resident birds to each person in this state living in the country or in towns of less than 25,000 inhabitants.

Of the 85 species represented by the 7,740 birds recognized on these trips, the 21 most abundant species were represented by 6,596 birds. That is to say, 85 per cent of the birds belonged to 25 per cent of the species. The more abundant species numbered, taken together, 550 to the square mile, and the 64 less abundant species, taken together, numbered 95 birds to the square mile or 1 to every 6 1/2 acres. The

latter species are evidently negligible as general factors in the ecological system, and attention need be given, in discussing the birds of the state as a whole, only to the 21 species common enough to produce some appreciable, general effect. Given in the order of their abundance they are as follows:

Birds	No. observed	Per cent
English sparrow	1,414	18.4
Meadow lark	1,025	13.2
Bronzed grackle	909	11.6
Mourning dove	461	6.0
Dickcissel	393	5.1
Redwinged blackbird	347	4.4
Prairie horned lark	296	3.8
Flicker	197	2.6
Robin	194	2.5
Field sparrow	186	2.4
American goldfinch	158	2.0
King bird	126	1.6
Bobolink	119	1.4
Grasshopper sparrow	101	1.4
Brown thrasher	104	1.3
Crow bird	102	1.3
Redheaded woodpecker	99	1.3
Barn swallow	96	1.2
Quail	91	1.2
Bartramian snipe	89	1.1
Crow	89	1.1
	6,596	85.2

MILK REQUIREMENTS FOR DAIRY CALVES

RESULTS OF TESTS AT UNIVERSITY ARE INTERESTING.

Experiments Made With Both Whole and Skim Milk—Grain Used to Vary Rations—Flaxseed Ingredients in Rations Give Best Results.

(By Prof. W. J. Fraser, University of Illinois.)

The first article of this series described the conditions existing in Illinois; the second article told how the first test was conducted—the present article describes:

How the Second Test was Conducted.

The twelve calves used in the second test were divided into four lots of three calves each. As in the first test, they were fed their mothers' milk until they were five days old, care being taken that they should not overfeed. With two exceptions, each calf was fed 10 pounds of whole milk and 2 pounds of skim milk per day for about 10 days. By changing one pound per day, the whole milk was then gradually replaced with skim milk, so that at about 25 days of age, the calves were put entirely upon skim milk. They were then fed 12 pounds of skim milk per day for 20 days, or until they were about 45 days old, at which age, according to the original plan, their ration of skim milk was reduced one pound per day until they were 55 days old, after which no milk was

fed. This plan was varied from slightly in a few cases, and several of the calves were fed skim milk for 5 days longer, or until they were 61 days old, because they were not doing well at the time. On the whole, the calves in the second test did not have their digestion so badly deranged as those in the first test and for this reason they did not get into as poor condition.

The grains fed the calves in the second test were as follows:
Lot 5—Whole oats.
Lot 6—Whole oats—1 part.
Ground flaxseed—2 parts.
Lot 7—Whole oats—4 parts.
Corn—4 parts.
Bran—1 part.
Linseed meal—1 part.
Lot 8—Same mixture as fed to lot 7—1 part.
Ground flaxseed—2 parts.
The roughage fed to all four of the lots was good clover hay.

Theoretically, because of its composition, a grain mixture composed largely of ground flaxseed containing the oil would seem to be the ideal feed for calves maintained on skim milk, but it was found in this test that because of its lack of palatability the calves would not consume enough of it, while they ate more freely of the other grains, which they appeared to like much better. This would seem to show that palatability is a more important factor than nutritive value.

The circular graphs showing the breeding of each calf, and the condition of the dam and calf and the weight of calf at birth. It also shows the amount of whole and skim milk consumed during the first ten weeks of the calf's life, the gain made by each calf, and its weight at the end of the ten weeks. It must be understood that each calf had consumed a small amount of grain and hay by the time it was ten weeks old.

Results show that it was possible to raise calves on a moderate amount of milk; the average amount required being 152 pounds of whole milk and 455 pounds of skim milk. They were rather thin for a time, it is true, but they were kept on pasture with a little grain until about six months of age, when they were all in good, thrifty condition, as shown in the accompanying cut. They made an average gain of 65 pounds during the first 70 days of their lives, which was doing fairly well for dairy calves.

About half the calves used for this experiment were from grade cows in the university herd; the remainder were borrowed at birth from neighboring dairymen and returned to them at about six months of age. Several of the calves kept by the university developed into good producers.

MUCH DEPENDS ON YEAST IN BREAD MAKING

Miss Bevier Compares Advantages of Liquid and Dry Kinds—Excess of Yeast Improves Appearance of Bread but Adds to Cost.

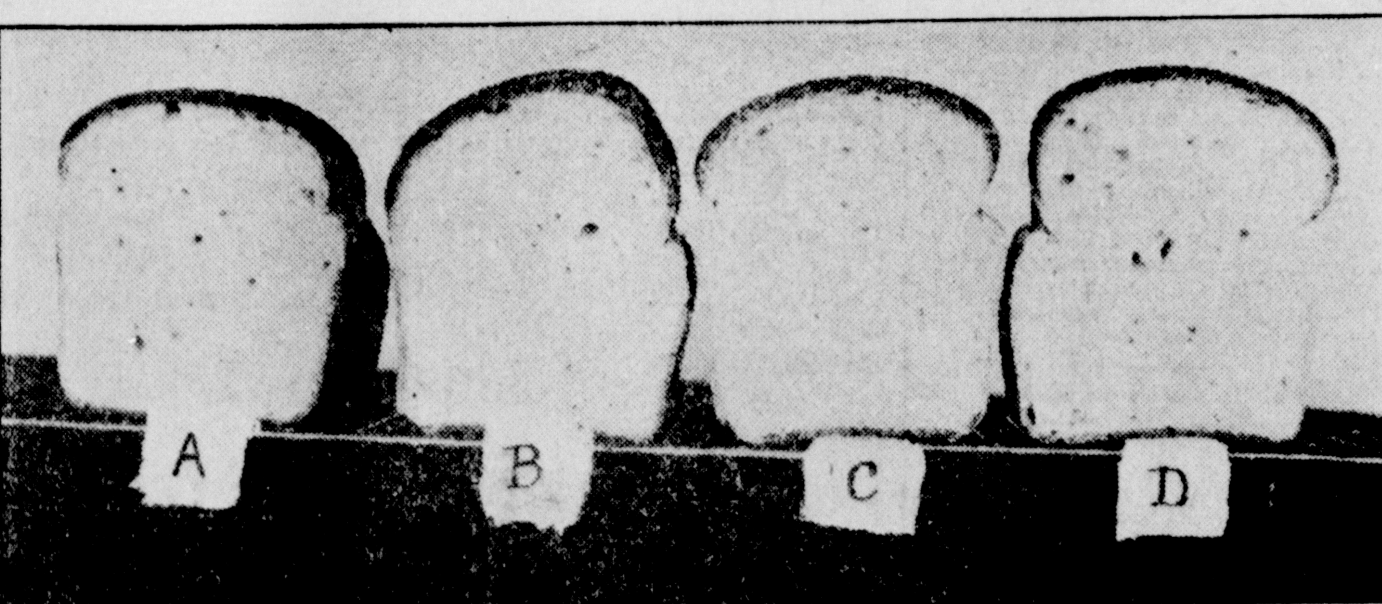

(By Isabel Bevier, Department of Household Science, University of Illinois.)

One objection indeed to the use of liquid yeast is because it is difficult, if not impossible, to determine the quantity available in a given measure as a cupful. If a pound of compressed yeast is secured, one may establish a very definite relation between the proportion of yeast used by starting with one-half cake per loaf and increasing the amount regularly, say to eight cakes per loaf. Experiments of this kind showed that as the amount of yeast increased, the time of rising decreased—in this particular instance from one hour and fifty-five minutes for the rising with one cake of yeast, to one hour with five cakes per loaf. The maximum volume was reached in two loaves with five and six cakes of yeast, respectively.

Excess of yeast of course increases the cost and does detract from the appearance of both the crumb and the crust, and is therefore not to be recommended. While excellent results, as regards texture, time and tenderness, may be attained with as high as two cakes per loaf, it is not an economical procedure, and one-half cake is ample. Moreover, experiments show that if sufficient time is allowed, a small quantity of yeast will yield as good results as a much larger quantity.

Excess of yeast also gives increase of volume, of crumbliness, and causes some loss of color in crust. Its influence upon the flavor seems to be an untold one, though the common opinion seems to be that an excess of yeast causes a loss of flavor. People frequently speak of the yeasty flavor of bread. In the writer's opinion this flavor is due in many cases to the condition of the yeast or to the material with which it was combined. Corn meal, for example, will grow rancid and give a bad flavor to a yeast cake. Miss Wardall, a student at the university, failed to find that flavor was influenced by yeast in good condition, while Miss Williams' experiments seemed to show a deterioration of flavor when more than three cakes per loaf were used.

Simmons says: "Much importance is placed by some people on the kind of yeast used, but on the same principle as the salt and vinegar, the yeast is not added in sufficient quantity to give a direct flavor of its own. In fact, any flavor is chiefly due to the amount of fermentation that the yeast is allowed, by time or heat, to produce. When the system of straight doughs first came into vogue with large quantities of yeast, it was frequently remarked by those who were counseled to use it that such larger quantities of yeast would taste, and it was frequently futile

Varying Proportions of Yeast. A B C D
Loaf A B C D
Cakes of Yeast 1 1 1/2 2

for the author to point out the fallacy of such a statement. The indisputable proof to the contrary, however, is given by the fact that bread is frequently made for special purposes with even five pounds of yeast to the sack, and has no yeasty taste whatever when properly managed, in fact, not nearly so much of this so-called yeasty taste as in the case of very much less yeast under other conditions, as, for instance, with a small quantity worked a long time."

Circumventing Satan.

In some parts of the world, particularly in Germany, it is still believed that the upsetting of the salt-cellar is the direct act of Satan. And the habit of trying to avert any catastrophe which may happen by tossing a little of the salt over the shoulder is due to the belief that by so doing one hits the invisible Satan in the eye, which temporarily, at least, prevents him doing further mischief.

MANY ORGANIZATIONS PLAN AID TO FARMERS

NUMEROUS METHODS TO IN- CREASE CROPS BRING CON- FUSION.

Co-operation is the Thing Most Needed in Agricultural Work—The Texas Way of Giving Aid Has Many Advantages.

(By Peter Radford, Texas Farmers' Union.)

Never in modern history has there been so many movements organized in the United States to help the farmer as at present, and there are many "cure-alls" with free samples for every ill that besets agriculture. No farmer should put out a "No Help Wanted" sign, but it is important that he employ only the kind of help he needs.

A great many people appear to believe that because a farmer pulls off his coat when he thinks, that he is not capable of understanding his problems. Men can sit in libraries entirely surrounded by books and papers and concoct schemes to cover the valley with grain fields and the hills with flocks and herds, and honestly believe they can make the farmer enough wealth to ransom a king, but the farmer knows better than to exchange magic for common sense. Men skilled in trading may feel capable of instructing the farmer in the art of cheating nature, but the farmer knows that mother earth will not be deceived. The problems of agriculture are as serious as the multiplication table and they cannot be solved by agricultural magicians making miracles to order or by seeking marketing through faith, hope and charity. It is a cold business proposition.

The farmer can only be helped through common sense and co-operation. The farmer is able to get about on the farm, but he loses his way in the market places and it is there he most needs assistance.

Too Many Organizations.

There are too many agricultural associations. The mania for organization is causing confusion of effort and a wasting of energy. Everybody, including the government, wants to organize the farmers and if the farmer joined all the associations, read their literature and attended their ordinances, he would have no time to plow. It is passing strange that out state legislatures will appropriate thousands of dollars, much of it to be used in organizing agricultural associations in localities where the farmers are already thoroughly organized, and oftentimes business men's associations send out emissaries to organize the farmer and at best they can only hope to duplicate existing organizations. The farmer does not need organization as much as co-operation and plans should be

who gets garden seed from his congressman knows there is power in government and can realize how important it is to find a market for the products.

In taking hold of marketing, the government is tackling the biggest business proposition of any age or nation and one that will require the combined efforts of all the powerful agencies or civilization. The producer must thoroughly organize the railroads, express agencies, parcel post, and all gigantic forces in commerce must be swung around the proposition in an orderly and harmonious manner, and governmental assistance is necessary in order to develop the working plans.

The Texas Way.

The nation can learn many lessons of importance in co-operation from the people of Texas. We are the first state in the union to appropriate money exclusively for the study of marketing plans. We are the only state where the bankers are financing the distress cotton at a low rate of interest, our legislature has passed a warehouse bill making cotton certificates negotiable and as good as government bonds, and the first of its kind to be placed on any statute book. We are the first to arrange to use the express companies as a medium of distribution between the producer and consumer.

We have organized co-operative gin companies, owned exclusively by farmers and operated in their interests; we have established a central selling agency for cotton with facilities for handling the 1913 crop, and otherwise afforded assistance to the producer in the sale of his products. These results have been brought about, in the main, by the business interests co-operating with the Farmers' union in their work. The farmer cannot be helped until he organizes, and the government cannot help the farmer except through organization.

Smallest Book in the World.

The smallest book in the world is in the library of congress, always under lock and key. It is a copy of the Ribaiyat of Omar Khayyam. The tiny volume was made by Nathan Dale of Cleveland, O. It was photographed, each page separately. Four books of the same size would just cover a postage stamp. Three hundred of them would weigh a pound.

SPECIAL FOR TODAY GOOSEBERRY PIE. IDEAL BAKERY E. STATE ST.

Not Entirely Biblical.

When the Bible was translated into Japanese an equivalent to the word "baptize" could not be found, and the word "soak" had to be used instead. So that Japanese biblical students are acquainted with a person named "John the Soaker" and with a doctrine of "soaking for remission of sins."

CLAS' 30c COFFEE WINS MORE FRIENDS EVERY DAY.

The merits of bones as barometers of fair or foul weather have been vouched for by the captain of an Italian steamer carrying a cargo of bones from the South American port of Buenos Ayres to New York. When the ship was sailing toward a storm recently the skipper stated the bones creaked and moaned, and when fair weather was ahead they were silent again.

His Best Friend.

Many great writers besides Cicero and Emerson have written on friendship, but it may be doubted whether any essayist had a more definite idea than a small boy who was recently asked what he meant by "best friend." "My best friend," he replied, "is a person who knows me and yet likes me."—Collier's

Unofficial Notice.

Hibernian in front of unfinished building to fellow workmen at fifty-story window: "Mulcahy, go to the spaking tube. I want to tell yes to come down."

Quite So.

"Love is a joint stock concern," murmured the girl. "Sort of a hold ing company," opined the young man, as he gently shifted her to his other knee.

BANKERS AND FARMERS HAVE PARTNERSHIP

MUST WORK WITH COMMON END IN VIEW OF BUILDING UP LAND.

Reconstruction of Whole System of Agriculture Is Aim—Changes Must Be Along Conservative Lines—Bankers Give Impetus to Movement.

(Second Abstract of an Address by B. F. Harris, Champaign, Ill.)

In the first article on "An Outline of Policy for the Conference of Committees on Agricultural Development and Education of the Various Bankers' Associations," it was suggested that only time-tried and proven practices be taken up. Thus far we have suggested soil survey work, the truth in regard to fertilizers, farm demonstration and education.

Fifth—Good Roads.

The two greatest necessities of modern life are education and transportation—for civilization travels in the wake of good schools and good roads.

Good roads lead in more good directions than the most far-seeing can contemplate.

Commerce begins on the country roads and byways; they affect school attendance, and literacy; they control markets and prices, the cost and pleasure of living, and are scarcely secondary to rail transportation in their far-reaching effect.

Sixth—Marketing and Distribution. Marketing and distribution are much affected by roads.

Better and widely published statistics, with reference to production, the sections of plenty and scarcity, are fundamental.

Co-operative methods as employed in several states have brought remarkable results, both to producer and consumer, and much study must be devoted to the subject.

Seventh—Farming Financing. Much of the success of all this work, as of all the commercial and industrial activities of the nation, is dependent upon the proper credit facilities, with the perfection of which we are in especial sympathy.

The short time credit of the farmer, like that of all men, can and should be provided in a broad general currency scheme for the whole nation.

In many or certain states, and probably best through state legislation, charters might be granted organizations limited strictly to real estate mortgage transactions, whereby long time amortizing farm mortgages could be provided on favorable terms.

Such machinery would help furnish the enormous sums which will be required for heavy investment in permanent farming.

Not the least important feature of such a system would be the opportunity thus given to the tenant to buy a farm on long time, for "absentee landlordism," tenant farming and short time leases are a menace to agriculture.

Eighth—Country Towns.

The falling off in farm population is hardly more noticeable than that of the country town.

Three out of every four in new population go to the larger cities.

As a fair illustration, half the counties, one-third of the county seats and some 3,700 country towns in some seven of the chief states of the union in the Mississippi valley, lost population in the last ten years.

The small country town is a big factor in our rural and commercial life and some 12,000 incorporated towns alone, with a population under 2,500, aggregate over 8,000,000 inhabitants.

The whole nation, as well as the farmer, should be concerned with the welfare of the country town and our efforts to aid must include them with the rest of the rural section.

To Sum Up.

All this may strike you as an ambitious program, but not half so ambitious as urgent.

We are working to help solve some of our greatest state and national problems, to check some of our greatest sources of waste.

We must make plain that the young man who leaves the farm to-day, is leaving one of the greatest businesses in the world, and that the opportunities are for the prepared man.

We should spread the fact that the science of agriculture must be added to a better art, resulting in larger crops and a richer soil.

We will help to demonstrate that a real farm is the best place in which the farmer can invest and that improved methods and plant will bring larger returns and make assurance doubly sure.

We can teach that the real farmer is a combination of grain and live stock farmer, saving his fertility and getting two prices for his crops, by feeding them to live stock.

Work in this cause spells good citizenship, and this enthusiastic entrance of the banker into the field of public welfare will soon make it impossible to say of him that he has not the sympathetic friendship of the people.

BUSINESS FOR SALE

My whole time being taken up with other duties, I have decided to offer my cigar factory and business for sale. If interested, call at circuit clerk's office.

A STRONG REFERENCE.
A young man recently applied for
a position with a large printing
house, and not having a letter of
reference, offered his bank book. It
showed a regularity of entries of de-
posit. It was a very strong recom-
mendation, indicating character and
persistence, which finally secured for
him a good position.

WORLD'S LATEST FINANCIAL AND MARKET NEWS

STOCK FLUCTUATIONS ARE IRREGULAR

TRADERS ARE PERPLEXED AS TO IMMEDIATE COURSE OF THE MARKET.

Weakness of Various Investment Issues Serve to Hamper Operations For the Long Account—Market Shows Signs of Independent Strength in Last Hour.

(By Associated Press)
New York, Oct. 24.—Fluctuations of stocks today were irregular. Opening with an advance, the market fell back yesterday's close and during most of the day's session made little progress in either direction. The close came with an upward swing in progress and the leaders ended the day with material gains. Professional traders shifted frequently and were evidently perplexed as to the immediate course of the market. Weakness of various investment issues among which Pennsylvania was most prominent, served to hamper operations for the long account. The only definite movement of the day was that of the last hour when the market showed signs of independent strength.

New Haven reached a new low record at 81½, as did the convertible 6's at 104½. Confirmation of the reports that the Pennsylvania was contemplating a huge bond issue was followed by renewed depression of the stock at 107½, although it did not reach the year's low point. Later it rallied strongly. Rock Island stocks and bonds were buoyant, rising ¼ to ¾ points.

In your hand you hold a five-cent piece.

Right at the grocer's hand is a moisture-proof package of **Uneda Biscuit**. He hands you the package—you hand him the coin. A trifling transaction?

No! A remarkable one—for you have spent the smallest sum that will buy a package of good food; and the grocer has sold you the most nutritious food made from flour—as clean and crisp and delicious as it was when it came from the oven.

NATIONAL BISCUIT COMPANY

PIMPLES WOULD BURN AND ITCH

Over Body and Head. Sore Spots on Arm and Shoulders. Scratched Until They Bled. After Using Cuticura Soap and Ointment a Week, Eczema Left Her.

913 S. Hackley St., Muncie, Ind.—“When my little girl was a tiny baby she broke out in little fine pimples here and there over the body and head. They would be about the size of a quarter after they were broken out and would form a scab for a week or more. Then the scabs would begin to peel off. The disease would itch and give her much trouble. As she grew older they would spread until some places would be as large as a half dollar. Her clothes seemed to make the sores burn and itch. The sore spots were on the top of her arm and two on her shoulders. She would scratch them until they would bleed. Sometimes in combing her hair it would come out.”

“I used — for a while but it did not seem to be any good and I used — also without result. She continued to break out with the eczema until I wrote for a sample of Cuticura Soap and Ointment and used them. I purchased some more and the sores came off and I could comb them out of her hair and it healed up just finely. After using Cuticura Soap and Ointment a week the eczema left her.” (Signed) Mrs. Laura Graves, Nov. 27, 1912.

For treating poor complexions, red, rough hands, and dry, thin and falling hair, Cuticura Soap and Cuticura Ointment have been the world's favorites for more than a generation. Sold by druggists and dealers throughout the world. Liberal sample of each mailed free, with 32-p. Skin Book. Address: post-card “Cuticura, Dept. T, Boston.”

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

Strict Compliance

With your wishes is our idea of service. If you have “ideas” to be carried out in the installation of your bath room or heating equipment, come to us, and it shall be our first endeavor to incorporate your own plans and ideas in the installation.

TOO MUCH CRITICISM SAYS JUDGE GARY

STEEL CORPORATION HEAD GIVES CAUSES FOR LACK OF BUSINESS CONFIDENCE.

Says Foreign Capitalists Wonder That We Are Not Continuously Prosperous—Volume of Business Might Easily Be Vastly Greater In This Country.

Chicago, Oct. 24.—Judge Elbert H. Gary, chairman of the United States Steel Corporation, in an address today at the semi-annual meeting of the American Iron & Steel Institute declared that the stability of business has been interfered with and the confidence of capital shaken by “unreasonable and uncalled for agitation and attack.” In spite of the country's wealth and resources, foreign capitalists wonder why we are not more continuously prosperous, he said.

“There are exceptional cases” declared Judge Gary, “in which mismanagement has caused distrust or dissatisfaction on the part of foreign and domestic capitalists; but this is not the principal reason for hesitancy at the present time on the part of these capitalists in making investments in our securities. They wonder why it is that with great and growing wealth and resources and our superior advantages we are not more continuously prosperous; why we are not more stable in prices and values and in general conditions; why there is ever any disposition on the part of any one to interfere with the normal progress in the development of our country and its industries. Every one who travels extensively abroad is confronted with these inquiries by foreigners friendly to and interested in our commercial and financial conditions and successes; and we assembled in this room are asking ourselves the same question.”

Ill Considered Criticism. “I venture the assertion that it is largely because of much unnecessary agitation and ill-considered criticism by those who have not the nation's best interests at heart. There is too much demagoguery, too much mud-slinging. The man out of office criticizes the one in office and the one in office in turn seeks to advance his own interests regardless of the effect upon all others. In many public speeches and in magazine articles the author is influenced by motives of selfishness or cupidity. Appeals are made for the purpose of creating a feeling of dissatisfaction and unrest when this is unnecessary and unjustified. Fortunately this is partially offset by the conservative attitude of some of the leading journals; and the number is increasing.”

“It is not uncommon in public discussion to treat success as an offense; to consider the possession of wealth, however honestly acquired, as wrong. Legislation calculated to create classes is urged persistently; also laws to impose unnecessary and unreasonable burdens; to forcibly take from one something which he has and is entitled to have, and turn it over to another; to prevent or to lessen the success of legitimate enterprise and endeavor.”

Agitation Unnecessary. “Capital always timid, has been seriously affected by this unreasonable and uncalled for agitation and attack. Indeed, it is becoming frightened. Confidence has been shaken. It is becoming almost impossible to secure, on fair terms, on good security and at a reasonable rate of interest, the necessary capital to equip or liberally maintain going and successful properties, to say nothing of the additions and extensions which the interests of this great and growing country demand.”

“The stability of business, which is essential to its proper and reasonable growth and success, has been interfered with. Our great and growing population can use our products; it needs food and clothes and material to build; and it is willing and anxious to buy them. It is in need of railroads and ships with the best equipment to carry these products from one point to another and it is willing to pay their rates for the service. Laborers are willing to work at a reasonable wage and employers are anxious to furnish work and to pay liberal compensation. The carrying companies are desirous of providing necessary facilities for adequate transportation. Producers in all departments of industry wish to satisfy the demands for their products at fair prices and to that end they would make the necessary increases in capacity. And those who are able are quite ready to furnish the necessary capital provided they can be certain of protection against loss or risk.”

Business Could Be Greater. “In short, gentlemen, this country, though hesitating, is eager to do business. The volume of business at this time, although large because the country is so vast, is not half so great as it ought to be or as it could be. It is high time for all of us to wake up to a realization of the fact that we are in competition with other countries, who by every means in their power are striving for supremacy; that it is not difficult for us, by good measure of success in competition with other nations of the world and yet that it is just as easy to fall if our vision is narrow or if we act without due regard to the results.”

“We would not discourage honest, sincere movements which are intended to maintain a fair equilibrium as to the rights of all classes of people; or those intended to prevent oppression or wrong; or such as may furnish full and equal opportunity to every one to honestly and properly advance his own welfare and pecuniary interests. But at the same time it should not be forgotten that the people of a nation prosper or fall together; that the unnecessary destruction of one or a few adversely affects the whole body; that while

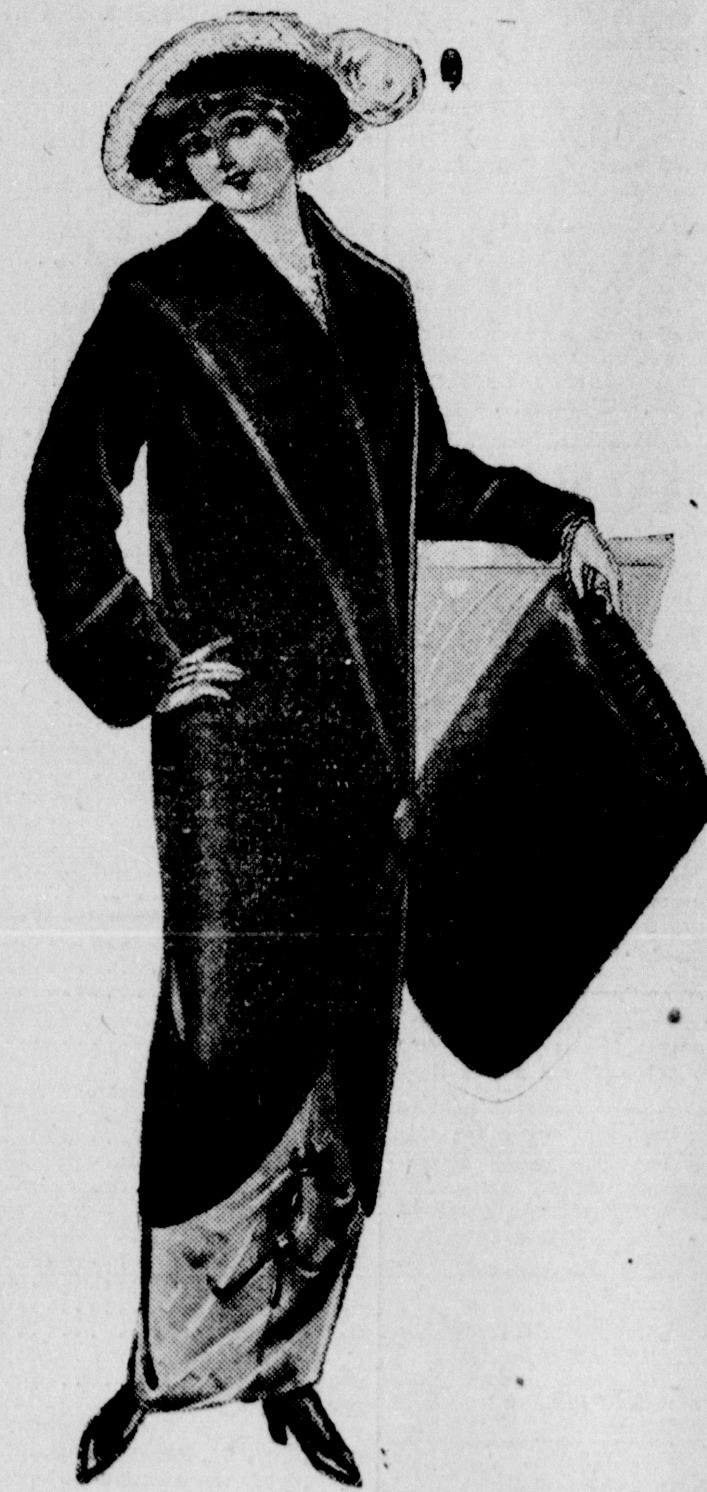

Autumn Opening and Sale

Ladies' Fur Coats and Sets

Tuesday, October 28th.

FRANK BYRNS' HAT STORE

Mr. Ed. F. Ryan, representing DETROIT'S MOST EXTENSIVE manufacturer and importer of ladies fine fur garments and sets, will give a display and sale of the very latest styles, rich in fashion's latest suggestions from Paris.

Here will be shown Fur Coats and Sets of extreme styles of rare Furs not carried in regular stock. Also many of the more conservative models.

The prices quoted at this time will be most attractive and will not be duplicated in the future.

Remember the date and the place, and above all, bear in mind that DECEPTION is not practiced by this firm in the sale of ladies' furs or other merchandise.

Every woman in Morgan and adjoining counties will want to see this great display. Detroit made furs have a reputation to sustain and are known the country over for their wearing qualities as well as for the distinctive styles of the garments and separate pieces. A visit to this store next Tuesday will be like going to one of the great fur markets, with the added advantage of special prices for that one date. The accompanying illustrations give only a partial idea of the very comprehensive lines to be shown.

Tuesday, October 28th.

FRANK BYRNS' HAT STORE

the application of the principles of good morals is of the highest importance, nevertheless the man whom it is sought to influence by these considerations leads an unwilling ear unless, at the same time, his material wants are satisfied.”

HERE AT HOME

Jacksonville-Citizens Gladly Testify and Confidently Recommend Doan's Kidney Pills.

It is testimony like the following that has placed Doan's Kidney Pills so far above competitor. When people right here at home raise their voice in praise there is no room left for doubt. Read the public statement of a Jacksonville citizen:

G. V. Skinner, blacksmith, 853 South East street, Jacksonville, Ill., says: “I am convinced that Doan's Kidney Pills are the best kidney medicine to be had. One of our family suffered a great deal from kidney weakness and backache and was relieved in every way by Doan's Kidney Pills.”

“When Your Back Is Lame—Remember the Name.” Don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills. The same that Mr. Skinner had—the remedy backed by home testimony. 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

Yep.

When a man brags of himself people, seeing that he is able to take care of himself, allow him to do it.

Your clothing, your furnishing goods, your winter wear, buy of Knoles.

Worth of Knowledge.

There must be a best way to build a house and a best way to train a child (because there is always a best and a worst in everything in all the world); and the immeasurable value of a well-trained child should be quite sufficient inducement to determine mothers and fathers to master the matter at any cost.

Bound to Have Some Kick.

“Don't you want to see the world a place of complete peace and harmony?” “No,” replied Mr. Growcher. “Just as soon as you get the world peaceful and harmonious a lot of people will arise and kick because competition has been eliminated.”

Severe Test for Physician.

It is said that Ardashir, the king of the Persians, never permitted a physician to prescribe for him until he had been stung by a viper. If he was able to heal himself he gave him his daily food, and the physician entered his service.—The Orient.

Worry Wasted.

“Much of our worry is useless. ‘Yes; it is. I once bought some stock in a rubber grove and worried two winters about frost before I ascertained that the trees hadn't been planted yet.’”

Alcohol From Chicory Root.

In Germany alcohol is now prepared from chicory root, which grows in various parts of that country.

Huge Map Is Being Made.

The international map of the world, on a scale of 1 to 1,000,000, will, when completed, eight or ten years hence, cover a total area of about 150 by 75 feet, or the surface of a globe 40 feet in diameter.

Quite Another Thing.

“What makes you so sleepy today, old man?” “I was up at 4 this morning.” “Come off! You never got up at 4 in your life.” “I didn't say I got up; I said I was up.”—Boston Evening Transcript.

Liberty Stays Till Last.

When liberty goes out of a place it is not the first to go, nor the second or third to go; it waits for all the rest to go; it is the last.—Walt Whitman.

Only True Liberty.

The liberty which is good is not the liberty of one gained at the expense of others, but the liberty which can be enjoyed by all who dwell together.—L. T. Hobhouse.

Melody of Happiness.

“Get out in the sunlight,” says a Georgia philosopher, “and see happiness coming down the road, picking a banjo for the whole world to dance!”—Atlanta Constitution.

How?

“The engagement ring Jack gave me is a beauty,” remarked Ethel. “Yes,” replied Maud, “I know it is.”

Read the Journal; 10c a week.

About Stamps.

Do not lick stamps. The best way is to moisten the envelope and not the stamp. When stamps stick together, do not soak them apart, but lay them on a smooth surface with a thin paper over them. This separates without destroying the gum.

Burned the Wind.

“Sam, were you in that riot last night?” “Yassir.” “Did you run like the wind, Sam?” “No, sir. I didn't run like the wind, ‘deed I didn't. But I passed two niggers that was running like the wind.”—Argonaut.

And Some Wall Street Goats.

Over 3,000,000 animals were slaughtered in New York last year, but at that a lot of asses managed to make their getaway.—Philadelphia Inquirer.

A happy man is one who gets his fall and winter suits of Knoles.

That “Stuffy” Feeling Relieved by Kondon's

WILL ATTEND METHODIST MEN'S CONVENTION

Dr. Harker and Dr. McCarty to Go to Great Gathering in Indianapolis General Conference Boards Meet in Illinois Cities—Conference of Bishops in St. Louis.

Dr. J. R. Harker and Dr. F. A. McCarty will be among the Methodists from this conference who will attend the national convention of Methodist men at Indianapolis, October 28th to 31st. Three thousand men are expected to be present, including bishops, general conference officers, general committeemen, district superintendents, one thousand pastors and fifteen hundred laymen. The purpose of the gathering being to formulate a practicable and comprehensive program and policy. Other purposes of the convention have been outlined by the committee as follows:

To increase missionary intelligence and to deepen the spiritual life.

To present the definite responsibility of Methodism both at home and abroad in relation to other denominations and Christian agencies.

To adopt a practicable denominational program and policy of advance.

To place more definitely before the church the new financial plan adopted by the general conference for the church as a whole and for the local church.

To emphasize the principles and practice of Christian stewardship as adopted by the general conference.

To discover and enlist more men for missionary and evangelistic service.

General Boards Hold Sessions.

The board of bishops of the M. E. church are meeting in St. Louis now and nearly all of them will go to Indianapolis for the men's convention. Subsequently they will attend sessions of the three great boards of the general conference which for the first time in many years are to be held in Illinois cities. The Freedman's Aid society will meet in Springfield Oct. 31 to Nov. 3; the Home Missionary board in Champaign, Nov. 5 to 9, and the Board of Foreign Missions in Decatur, Nov. 10 to 12. Aside from the bishops' general conference officers will be present at these board meetings.

The M. E. Bishops.

At the St. Louis meeting none of the missionary bishops are present and two active bishops, Bishop Lewis of Foochow, China, and Bishop Rashford of Peking, China, are also unavoidably absent, as are two retired bishops, Thomas Bowman of Orange, N. J., who is 96 years old and critically ill, and John H. Vincent of Chicago, father of the chautauqua, now temporarily indisposed. All the other bishops, residing in various parts of the United States and in Switzerland and in South America, are participating in the deliberations and will occupy various Methodist pulpits of the city Sunday morning and evening.

The bishops of the Methodist Episcopal church are general superintendents of the world-wide activities of the denomination. They appoint over 20,000 active ministers to the various charges, on which there are over 30,000 churches. At the St. Louis meeting the bishops will make assignments for episcopal supervision of all the annual conferences that meet next spring. The bishops are chosen by the quadrennial general conference of the church and are all picked men. Many of them have international renown as educators, editors, authors and lecturers. Ohio seems the birthplace of bishops, as well as presidents, contributing seven, Bishops Walden, Cranston, Moore, McDowell, Luccock, McConnell and Thirkield. Three were born in New York and 3 in Pennsylvania. Four were born in other countries, Bishop McIntyre in Scotland, Bishop Nielsen in Switzerland, Bishop Bart in England and Bishop Berry in Canada.

Special display Detroit made for Frank Byrns' Hat Store. See adv. page 12, this paper.

WILL SPEND WINTER IN WEST.

Mrs. William N. Haigrove has left for California where she will spend the winter. Her first destination is San Francisco though later in the year she expects to travel through the southern part of the state. Mr. and Mrs. W. N. Haigrove of Waverly, the parents of W. N. Haigrove are making their home in this city with their son.

C. P. & ST. L. WILL SPEND LARGE SUM IN SHOP IMPROVEMENT

Announcement Made That Repairs at Local Shops Are To Be Made at Cost of \$8,000—Monthly Pay Roll Is \$12,000—Will Build Engine Here.

Announcement has just been made that the management of the C. P. & St. L. expects to spend about \$8,000 here soon in making repairs at the shops. This fact lends color to belief that the plan to remove the shops from Jacksonville has been temporarily abandoned at least, an announcement which sounds mighty good to residents of this city.

The C. P. & St. L. shops present a busy scene at present and there is work enough in sight to keep the men busy until April. It is a source of much gratification to observe this state of things for it means much to Jacksonville. Approximately the company pays out \$12,000 a month in wages and most of that sum stays in Jacksonville of is expended here to the advantage of the merchants of the city.

It is also gratifying to note a somewhat new departure. The company is having Mr. Ingrund and his men try their hand at constructing a locomotive new throughout. Course they don't cast the wheels here but they are practically to build a new locomotive and it is to be a monster too, an eight driver machine to pull big loads of freight, and if the men make good in this instance they will probably have others to construct. There will be no doubt regarding the quality of the engine; the men in charge from one end to the other are experts and can make a good one; the only thing to be tested is the cost and if that compares favorably with what the company would pay a locomotive manufacturing concern then more will undoubtedly be constructed here.

The shops also have orders to build a lot of cabooses and possibly freight cars will come next, all of which is welcome news to the friends of the road in the city. Several locomotives are now in the shops to be virtually made new and the work on them will consume a lot of time.

The C. P. & St. L. road is much to Jacksonville for the residence of \$12,000 a month is a great thing and the road should commend itself to the good will of all who want to see the town grow and do well. Substantial encouragement from the citizens of Jacksonville will mean much to the line and that it should have for it is well deserved.

RUB RHEUMATIC PAIN FROM STIFF ACHING JOINTS

Rub Soreness From Joints and Muscles With a Small Trial Bottle of Old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacobs Oil" conquers pain. It is a harmless local rheumatism cure which never disappoints and doesn't burn or discolor the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia and reduces swelling.

Linger up! Get a small trial bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you will be free from pains, aches and stiffness.—Adv.

"OFFICER 666" COMING. The coolest crook and the most blasé lover in the whole world will be found in the east of "Officer 666" at the grand next Friday night. The former calmly assumes the name and occupies the house of an absent millionaire, and nonchalantly proceeds to rifle the residence of its valuable paintings, while the latter, who being mistaken by the police for the picture thief they are trailing, gets his wrists ornamented with a pair of steel handcuffs and, thus manacled, proposes and is accepted by the divinity upon whom his choice has fallen.

"Officer 666" which ran all last year at the Gaiety Theatre in New York, is an unusual play. It makes you laugh. It keeps you guessing while it administers some delightful surprises in the way of unexpected thrills that are particularly pleasant to receive and agreeable to recall.

HILL COLLEGE FOOTBALL SEASON TICKETS \$1.00 each at LUKE-MAN BROS., DREXEL, BYRNS' HAT STORE, COURIER and JOURNAL.

FRIDAY SOCIAL CIRCLE HOLDS FIRST MEETING.

The Friday Social Circle held their first meeting of the year yesterday afternoon with Mrs. Virginia Vasey on West North street. The annual business meeting and election of officers was held and the following officers were chosen:

President—Mrs. James Vail.

Vice-president—Mrs. Frank Lind-

Secretary—Mrs. Claude Vail.

Treasurer—Mrs. Virginia Vasey. A very enjoyable contest was played and the prizes were won by Mrs. William Cody and Mrs. Margaret Rae. The afternoon was most pleasantly spent by all present.

For durability, for freedom of action, for perfect fit men should buy MUNSIE underwear. Sold by FRANK BYRNS' Hat Store.

NO LIGHTS FROM CITY PLANT.

No lights were furnished from the city plant last night. Supt. Catherwood explained that it was necessary to shut the plant down while connecting up the new engine with the boilers. The work, however, will be finished some time today and the plant will be in use again for tonight.

Yes, we have moved to 228 South Sandy street, where we are very comfortably situated in our new home, "and watch us grow." We now have the best equipped garage and salesroom in central Illinois. Where the general public is invited to call and inspect our apartments, and find for yourself whether or not we are quoting the truth. We have just completed our office and accessory room, and added a fresh coat of paint to our front. So watch for the sign and don't forget the number, 228 South Sandy street, Jacksonville, Ill.

PAID HONORS TO MR. VAN FOSSEN.

J. P. Claus and John Sibert have returned from Beardstown where they went to attend the reception given in honor of Mr. Van Fossen, who was recently elected out guard at the grand lodge of Knight of Pythias. Mr. Van Fossen is very popular in Beardstown where he is known especially as a friend of children. Each year he takes hundreds of them on a river excursion and this is but one of his philanthropies. The reception Thursday night was a very successful affair and Mr. Van Fossen's many friends were glad to pay him honors and to congratulate him on election to the office which will eventually make him chance for commander of the grand lodge.

MORTUARY

Fernandes.

Miss Gertrude Fernandes passed away at her home at 240 Pine street Friday morning at 10:30 o'clock, after an illness of several months. Although her death was not unexpected, it came as a shock to her friends, of which she was possessed of a large number.

Miss Fernandes was born in Jacksonville August 3, 1889, the daughter of Mr. and Mrs. M. G. Fernandes. She was a graduate of Brown's Business College and of the high school and studied music at the Woman's college. She was known for her talent as a musician and for faithfulness in the work of her church, Northminster, of which she was a devoted member.

Besides her parents she is survived by one brother and four sisters, H. W. Fernandes and Mrs. Daniel Gouveia and Mrs. Edward Marks of this city; Mrs. J. D. Hood of Davenport and Mrs. E. C. Pires of Fortoria, O.

The funeral will be held Sunday afternoon at Northminster church at 2:30, in charge of the Rev. Walter E. Spooner, assisted by the Rev. A. B. Morey.

PHI ALPHA SOCIETY HOLDS ANNUAL ELECTION.

College Society Chooses Officers and Takes in Two New Men—The Program.

At the fifth meeting of the year last evening, Phi Alpha Literary Society of Illinois college chose its officers for 1913-14 as follows:

SOCIAL EVENTS.

Yesterday Mrs. John Ransom of South Jacksonville handsomely entertained at dinner a number of friends in honor of Mr. and Mrs. Thomas Edwards of Kansas. Mrs. Nettie Coultas of Markham, a sister of Mrs. Edwards, was also one of the guests. A sumptuous dinner was served and fully enjoyed by all present.

The Junior Amos of the First Baptist Sunday school, taught by Mrs. L. B. Turner, were guests Friday evening of Miss Elsie Reed of North Fayette street at a delightful masquerade party and Halloween social. Fortune telling, ducking for apples and other games appropriate to the mysterious October festival occupied the time until a late hour when refreshments were served. The prize for the best masquerade was won by Mrs. Frances Imenga and the reward for the largest number of costumes guessed went to Mattie Hall. About thirty guests were present.

The Junior class of the high school was entertained Friday evening at a marshmallow and wienerswurst roast at the home of Mr. and Mrs. Frank Drury of Orleans. Fifty young people, accompanied by Misses Scott and Day and Mr. Huber as chaperones left the high school building at 5 o'clock on two hay wagons and completed the ten mile drive with appetites in good shape for the treat that was to follow. The juniors adjourned to a large shed near the house besides which a camp-fire had been built and prepared and ate the delicacies mentioned and listened to selections on the phonograph. The shed was decorated by the class colors, blue and gold. Enjoyable in every way, the party at Orleans last evening will remain long in the memories of J. H. S. 1915.

The members of the Marys and Marthas of the Grace M. E. Sunday school spent a most enjoyable time Friday evening at the home of Mrs. C. E. Williamson, 517 West College avenue. The ladies whose birthdays occurred between the first of May and the first of October were the hostesses and among this number was Mrs. Williamson. The hours were spent in singing old songs and a spelling match was part of the entertainment. The house was decorated in the Halloween colors and refreshments suitable to the occasion were served. Mrs. S. R. Nelson is teacher of the class.

Mrs. Spencer Taylor, assisted by Mrs. Mel Armstrong, entertained the Ladies Aid No. 1 of the Central Christian church at her beautiful new home on East Greenwood avenue, Friday afternoon. Twenty-five guests were present and an enjoyable time was spent by all present. El-

borate refreshments were served and music and games were enjoyed.

Mr. and Mrs. J. H. Worrall and family of Murrayville were very pleasantly surprised Thursday evening, the occasion being the birthday of Mr. Worrall. A large crowd gathered at their residence and when Mr. Worrall returned home he was indeed surprised to find that so many friends had gathered to help him celebrate his natal day. Each one brought refreshments so this part of the evening's program was greatly enjoyed. Many happy and well wishes were extended the guest of honor. Music was furnished by Messrs. Kurl, Fanning and Worrall. Among those present were M. Kendrick, Jacksonville; Harry Kurl and family, Joseph Fletcher and family, Mr. and Mrs. Harvey Hayes, Mr. and Mrs. James Quinn, Mr. and Mrs. Clyde Combes, Charles German and wife, Otis Finch and family, Oran Finch and family, Arthur Loneran, James McGrath, Chester Cade, Clifford Emerson and Sidney Kurl.

Invitations have been received to the marriage of James G. Alexander of Chicago to Miss Winnifred Jones of Tuscola, Ill., the ceremony to take place Oct. 30 at the home of Mrs. William Jones in Tuscola. The groom-to-be is the son of Mr. and Mrs. W. L. Alexander, formerly of this city but now of Corydon, Io.

The ladies of the State Street church held an all day sewing Thursday at the home of Mrs. Thomas Heaton on South Clay avenue. There was a good attendance and quite a quantity of sewing was done in preparation for the bazar Dec. 1. Each member brought something to eat so that the noon day meal was greatly enjoyed.

The members of the Freshmen class of the high school, to the number of 195 enjoyed a very happy evening Friday at the residence of Mr. and Mrs. Ralph Reynolds, three miles south of the city. Mr. and Mrs. Reynolds two twin sons, Howard and Homer are members of the class. The young people were met at the end of the south car line with two hay wagons, but a number of the boys had to form a "hiking party" as there was not room for all. After all had assembled a bon-fire was kindled, marshmallows were roasted, and ice cream, cake were part of the refreshments, served out-of-doors. Later all assembled in the home where music was enjoyed until 10:30.

One room in the house was decorated in red and white, the high school colors and another in purple and gold, the class colors. Mr. and Mrs. T. P. Carter were the chaperones and during the evening Mr. Carter gave a number of guitar solos which were greatly enjoyed.

A. M. UPHAM HONORED.
A. M. Upham, formerly of Jacksonville, but who for the past several years has been engaged in the insurance business with headquarters in Des Moines, Ia., has been elected by the Iowa Fire Prevention association as its president for the ensuing year. The association was in annual session in Des Moines last week. The retiring president, J. D. Carpenter, nominated Mr. Upham for the position and spoke in highest terms of the interest taken and aid contributed by Mr. Upham in cause of fire prevention in the state. The honor came as a surprise to the gentleman who in an enthusiastic speech accepted and said that the working committee would be announced in due time.

Mr. Upham is a son of "Uncle" Ben R. Upham of this city, and has many warm friends here where he is well known.

PATRONS, NOTICE.
W. E. Allen, driver, is no longer in our service. Earl Poland will assume his duties and will call for your bundles at the usual time.

RETURN FROM WEDDING JOURNEY

Mr. and Mrs. William Ricks who left for a wedding journey by auto mobile through Indiana, Ohio and to points further east, returned to Jacksonville yesterday. They did not come in their car as they were compelled to abandon it at Chrisman on account of bad roads. Chrisman is near the Illinois-Indiana boundary line and Mr. Ricks will go there later to drive the car home if road conditions improve.

Underwear of all kinds, hats, caps, mitts, gloves, ties, mufflers, Knives.

MR. WOLKE WILL WITHDRAW BID ON EIGHTH GRADE BUILDING

Contractor Who Gave Lowest Figure Will Notify Board Not to Consider Bid Given—Error of \$2700 Cause of Action.

It is understood that John Wolke, who presented the lowest bid for the proposed eighth grade building, will formally notify the board of education this morning that he wishes to withdraw his bid. Only the fact that R. L. Pyatt, clerk of the board, was absent from the city prevented such notice being given Friday afternoon. Bellatti & Bellatti are understood to be Mr. Wolke's attorneys.

Mr. Wolke, acting upon legal advice, maintains that he has a perfect right to withdraw his bid and it is his opinion that the board will then be in position to consider the four remaining bids and that matters will be just in the condition that would have obtained if the Wolke bid had never been filed. William McCullough is the next lowest bidder.

In making his estimates for the building Mr. Wolke figured \$3000 as the cost of the concrete work and when he transferred these figures to a sheet of paper on which he was making his totals he wrote them as \$200. Later when he had secured a figure for the work from a concrete contractor of something more than \$2500 he simply added to his grand total the difference between \$2000 and the bid. This still left him \$2700 short of the amount he intended to bid and the error was not discovered until some time after the bids had been opened.

Mallory Bros., for masquerade suits.

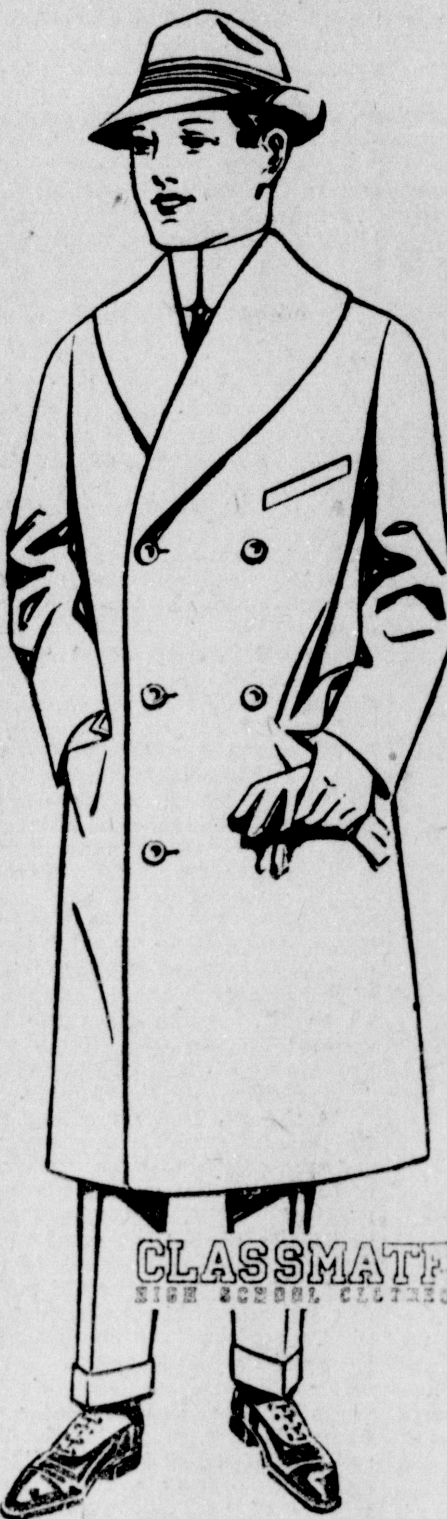

NOTICE TO REPUBLICANS
A meeting of the Morgan County Republican Central committee will be held this afternoon at one o'clock in the Yates building, above the Gilbert pharmacy on West State street. All members of the committee and Republicans generally are urged and invited to attend this meeting.
M. L. Hildreth, chairman.
F. E. McDougall, Sec.

MYERS BROTHERS

THE SEASON'S DISPLAY OF

LACE CURTAINS

EMBRACES AN UNUSUALLY ATTRACTIVE ASSORTMENT FOR EVERY REQUIREMENT.

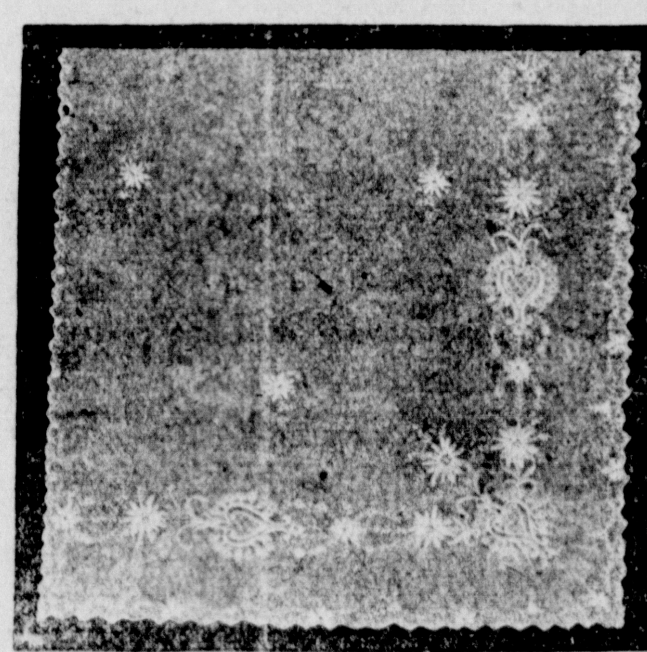

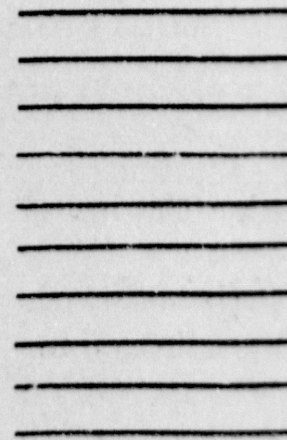

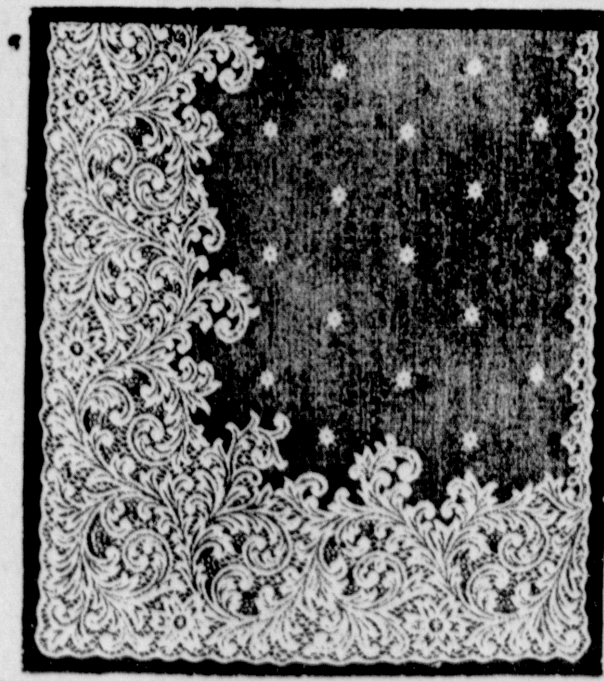

More diversified and in larger assortments than any previous season are the styles of Lace Curtains shown for this season's selling. In fact, there are scores of patterns in the various styles at almost any price limit you may wish to name, from \$1.50 up to \$25 a pair, a few of which we list for your perusal, as follows:

ARABIAN LACE CURTAINS—Which are so particularly adapted for use where overhangings are used because of their rich lace edge. A very large variety of patterns mounted on double French cable Net, the outside edge taped to keep the net from stretching when laundered. Prices range from \$3.50 to \$25 a pair.

BRUSSELS LACE CURTAINS—Which have always been considered among the choice styles are particularly good this season. We are showing an entire new line of most attractive patterns, ranging in price from \$5.00 to \$15.00 a pair.

MARQUETTE AND ETAMINE CURTAINS—Perhaps the most popular style of curtains because of the splendid wearing qualities of these materials, and of their adaptability to combine with various laces, motifs and embroideries. Hand drawn work is also used to a great extent on these curtains, producing the greatest range of patterns and prices of any of the styles shown, commencing at \$2.25 up to \$15 a pair.

CURTAINS OF ENGLISH AND FILET ALL-OVER NETS—With linen lace edges, a very wide assortment of patterns of both large and small figures in lacey designs, block patterns, etc., ranging in price from \$1.75 to \$10.00 a pair.

CURTAIN MATERIALS BY THE YARD

ENGLISH FILET NETS—Ranging in price from 35c to \$2.50 a yard.

GRENADES which are so desirable for the wide crossed curtains, in a most attractive line of new patterns.

ETAMINES AND MARQUETTES—Both plain and fancy weaves, from 20 to 50c a yard.

SCOTCH MADRAS—A very large assortment of patterns in both white and natural, 25c to \$1.50 a yard.

DOMESTIC SCOTCH MUSLINS—Scores of new designs for the making of both flat and ruffled muslin curtains, at prices ranging from 20 to 50c a yard.
